Acheson Hints He's Going to Name Woman Ambassador for Top European Country

By DREW PEARSON

Along Pennsylvania Avenue

President Truman is happy as a schoolboy over the worldwide reputation given to his plan to build up backward areas. After White House aides showed him stacks of newspaper clippings, the president remarked: "This idea is so good I should have thought of it a couple of years ago." Secretary of State Dean Acheson has agreed to name a woman as ambassador to one of the top European countries. . . . The story on what happened to the Gallup polls, the predictors and the newspaper during the late election has just been published by Morris Ernst—"The people know best." Healthy reading for newspapermen. . . . After the real estate lobby demanded an investigation of New York City's rent advisory board, Chairman Joseph McGoldrick wired the senate banking and currency committee welcoming such a probe. But he added—that the investigation should also include the real estate lobby.

Chinese Communists and U. E.

The state department has just received an awkward cable from American Consul General Angus Ward in Mukden, China.

Consul Ward cabled that American citizens, American property and American diplomats in communist-held northern China are receiving remarkably good treatment at the hands of Chinese communists. In fact, Ward cabled that one of the leading communist generals of the north had visited the consulate that day to pay his respects.

The Chinese general was most polite, spent an hour assuring Ward of the communist desire for friendship with the USA and their hope of peaceful cooperation in a trade. Following this, Ward took the communist general on a tour of the American consulate.

His visitor seemed much impressed, particularly by an exhibit of the U. S. information service which featured news dispatches and propaganda, translated into Chinese, telling America's story to the Chinese people.

"Now, Mr. Consul," the Chinese communist general said, "I am delighted that you Americans believe in the freedom of the press. I think that is a very fine exhibit. We believe in freedom of the press, too."

Consul Ward smiled happily. Then he stopped smiling.

"Since we all believe in the freedom of the press," continued the Chinese communist general, "I have a few documents and articles that I'd like to put up with your exhibits so that the people can see both sides of the story. That would only be freedom of the press. I know you will be glad to do it."

Consul Ward had no answer. He engaged in some polite doubletalk, then hastily wired the state department for instructions.

Capital Chaff —

The Republicans who wangled the Lincoln day dinner invitation for Governor Dewey were Michigan's Congressman George Dondero, chairman of the Lincoln day committee, and his close friend, GOP National Chairman Hugh Scott. Other Republicans are irked because

Dewey was invited.

Not a word has been said about it, but 200 American fighter planes have been sent to Italy from Germany; also nearly 1,000 tons of U. S. ammunition have gone to the Italian army. General Glay decided on the shipments after one of his aides conferred with one Italian chief of staff in Rome.

The USA has started secret negotiations with Panama to secure new American bases. Panama cancelled its bases agreement last year, at which time U. S. troops promptly pulled out. Now Panamians are offering new bases in return for a loan. Army navy, in turn, want to set up radar equipment in Panama—outside the canal zone—to warn against enemy aircraft.

Man Perishes in Cold While Seeking Shelter in a Hay Stack

66 YEARS AGO
February 13, 1883

As Ira Price, who lives South of O'Neill, was going home last Wednesday afternoon, he discovered the dead body of one Mr. Praha, a Bohemian, who lived six miles South of O'Neill. Procuring assistance the body of the unfortunate man was placed in the wagon and was brought to O'Neill, where it was taken in charge by the sheriff and laid out in Odd Fellows' hall. Friday afternoon he started home in the blinding storm and nothing more was seen of him until found as above described. He was by a hay stack and had a well beaten path, about a rod long, which he no doubt made in trying to keep warm. It is curious he did not set the stack on fire, as he had matches, but he was probably too numb to think of anything. His friends were notified and came Thursday, and Friday afternoon he was buried in the cemetery near town.

While in Fremont a fortnight ago, Mr. Fahy talked with some men engaged in the creamery business, and they talked very favorably of putting in a creamery at O'Neill, provided the citizens will subscribe stock to the amount of \$2,500, they agreeing to furnish the same amount. It would be a grand thing for O'Neill and the settlement, and we urge the people to take hold of the enterprise and push it forward to completion.

Wm. Dugal, son-in-law of Mrs. Judd, died last Friday of consumption, and was buried Sunday. Mr. Dugal had been in the Black Hills for some time, and while there contracted typhoid, which merged into consumption. He came home about a month ago, since which time he has gradually failed, until death finally relieved him of his suffering. The sympathy of friends is extended to the bereaved relatives.

The proposition to submit the question of bonding the county for \$50,000 with which to buy seed grain, is under consideration today by the supervisors. Petitions containing 670 names have been filed. The number necessary to submit is 506. It is thought the question will be submitted.

The work on the O'Neill irrigation and power canal will be commenced as soon as the weather permits. The engineer will be on the route and the survey completed by the time work can be commenced. Water rights have not all been secured yet, but enough to insure the ditched. All who expect to get
