For nearly 20 years Mrs. Libbie Supernois labored faithfully in China. She was engaged in women's work and served as teacher for the missionaries' children. Because of serious illness of her husband, the Supernois family returned to the United States a few years ago. In the providence of God, Mr. Supernois was called to his reward, and Mrs. Supernois entered the pastorate where the Lord has graciously blessed her ministry. The way for her return to the field seems to be opening so she is giving her full time to deputation work. She has an intimate first hand knowledge of China and its people, and her presentation of that field is vivid and clear. We welcome you to these services to receive new missionary zeal and vision.

The church has just received a new coat of plaster and the floor is being sanded and refinished. We trust that the roads will be so we can have service there this Sunday.

Ag Signup Time Short, Ressel Says

Signup time is short for those farmers wishing to participate in the 1949 agricultural conservation program, according to Harry Ressel, chairman of the Holt county PMA.

The payments on several of the established practices are somewhat increased over last year and there are many new practices added that have not been used in Holt county in recent years. Farmers wishing to sign up must now contact the county office to sign their farm plans, except for Steel Creek, Scott, Coleman, Saratoga and Rock Falls townships where postponed signup meetings are yet to be held. Farmers in those precincts may also sign at any time in the county offices.

Holt County now has 80,000 bushels of corn under loans, and 20,150 bushels under purchase agreement. The closing date for availability of loans and agreements is June 30, 1949 loans must be completed by this date, Ressel added.
