When you gotta stop - you wanta stop!

"It can stop on a dime," the salesman promised you, "—and leave nine cents change!"

And your Buick did—when it was new and brake linings unworn and everything factory-tight and fresh.

But brake linings wear—lights grow dim with time—tires can lose their bite and traction.

And with a whole summer's driving ahead, what better time than this to bring your Buick back to new-car peak in all those details that mean so much to safety?

Our men, trained in Buick ways, will give you brakes that stop you as Buicks should, with new brake linings that are right in size and brake drums turned to perfect round.

They can replace sealed-beam headlights to give you new-bulb brilliance—and while they're at it, check battery, voltage, wiring and headlamp-aim to boot.

They'll check tires, switch them as needed, look into wheel alignment for easy steering.

In a word, they'll renew your Buick with the same care and interest they would lavish on their own—and do it at no greater cost than for just ordinary service.

So drop in. Get set for some summer fun that's up to lively Buick standard.

Check your car--- Check accidents!

Three great service and safety organizations across the country are alerting car-owners everywhere this month on safety-checking their cars.

They list ten vital question marks for you to think about—How are your Brakes? Lights? Tires? Steering? Wheel alignment? Defective glass? Rear-view mirror? Muffler? Windshield wipers? Horn?

Be sure your family rides in safety—ask your Buick service man to look over these check-points this month—and join the great drive for driving safety!
