STARTING 12TH YEAR OF SELF-REGULATION

Eleven years ago this month the brewing industry in Nebraska launched a unique Self-Regulation program. Its objective was to insure that beer be sold only by responsible persons in respectable places in full accordance with the law and the standards set by the industry.

Progress has been made. The men and women who patronize the state's taverns will attest to the fact that law observance has reached a new high level.

The results of eleven years of work indicate that much has been accomplished. The brewing industry will keep faith with the public by continuing its educational program among retailers.
