Beer Legalized in Nebraska 16 Years Ago This Month

The record of the last 16 years has vindicated the judgment of Nebraska voters in discarding a 13-year experiment which was characterized by crime, corruption and disregard of law. National crime has decreased 7%, highway fatalities almost half!
During these 16 years, the industry has learned much about the operation of taverns—operation in the public interest.
An educational program designed to assist every tavern keeper is being conducted by the Brewing Industry for the benefit of the entire community.
