See This New DOBBS TRUSS It Is

STRAPLESS - BELTLESS BULBLESS

It holds muscles with a soft concave pad. Light weight, touches body in but two places. Reason should teach you not to place a bulb or ball in open of rupture, which keeps muscles spread apart.

It is sanitary and can be washed. It does not slip.

A factory representative having three hernias will demonstrate this truss in O'Neill. You may see this demonstration without obligation.
