HAYING NEARS COMPLETION

Abnormally Cool Weather Prevails This Week in Region

Rainfall in the amount of 2 1/2 of an inch was received here during the seven-day period ending at 8 a.m. Wednesday. The moisture came during three different 24-hour intervals.

The week's weather, however, has been characterized by an abnormal coolness, which saw the mercury drop to the 50-degree mark early Wednesday.

Precipitation during the week has been in the form of light scattered showers. The region was threatened late Sunday but the storm never materialized despite heavy clouds and considerable electrical activity.

Haying is about 80 percent completed, some observers said this week. But considerably more hay has been put up to date than by this time last year. Some ranchers say that the hay crop is usually "put up and forgotten" by September 1.

Meanwhile, the corn crop is fast reaching the harvest stage. However, harvest of the crop will run behind schedule because of the late planting last Spring.

With the moisture that was received this week, most of the Fall pastures are in "good" condition.

A summary of this week's weather, based on 24-hour periods ending at 8 a. m. daily, follows:

Date	Hi	Lo	Pre.
August 25	94	66	
August 26	88	68	.06
August 27	84	62	
August 28	80	55	
August 29	82	53	.14
August 30	83	53	.08
August 31	75	50

Leahy to Provide Pictures, Footballs

Frank Leahy, Notre Dame university athletic director and one of the nation's all-time athletic greats, has agreed to forward six autographed footballs to be used in connection with raising of funds for St. Anthony's hospital.

William J. Froelich, of O'Neill, asked Leahy, who was born here, for the offerings. Leahy wrote Froelich:

"Very happy to hear from you, and happier to be in a position to render a small service to you and to the citizens of O'Neill."

A month ago autographed baseballs averaged 100 each when sold in a hospital benefit.

Mr. Froelich wrote Leahy at the request of Matthew J. Scha, who helped with the arrangements for the baseball auction.
