## BETHANY METHODIST (Amelia)

Rev. Ira I. Dixon, pastor  
Free Methodist church southwest of Amelia in a revival.

The very air seems to be rejoicing with all nature at the return of spring. But that is not the best nor all, for those of this community who hear and heed the gospel messages which are heard nightly from the Rev. H. E. Baker, of Salamanca, N. Y., will be able to rejoice throughout all eternity.

He is now at Beaver City, but will be with us here at Bethany May 2-14. Services will be each evening, beginning at 8 o'clock and at 2:30 p. m. on Sundays.

You'll not soon forget his smiling face, neither will you soon forget those timely truths, for his type of religion lives on and on.

For many of us, this is a time of planting but "the harvest is white," saith the Lord. Here would be a lasting place to invest some of your time and talent for God.

Let us worship together.

## MM MODEL "Z" TODAY'S MOST REFINED TRACTOR

All the operating features you have wanted for years are yours with the new MM "Z". The fore-runner of modern tractor engineering this popular model has been the first in the MM line to offer revolutionary developments. Recall the first "Z" had the exclusive MM engine with 150 fewer operating parts. More progressive changes make the "Z" better than ever. Latest improvements give 10% more power on draw bar and belt. Where is the man that can't appreciate the advantages of extra horse power?

Improved appearance for "Visionlining" further promotes visibility. Permits better operation on every job. Speed range has been increased to provide most suitable field speeds. A practical change in keeping with the times. Hardened sector gear has been adopted on all "Z" models except the standard tread which has redesigned steering arms and tie-rod located at rear of axle. Result is improved steering ease and longer life steering gear.

Differential now features the Revacycle tooth form. A precision gear with increased strength.

Easy, comfortable operation features include Lazy Back air cushion seat, adjustable steering wheel, "wobble stick" gear shift lever, improved easy braking action and Uni-Matic control. A new era begins with this obedient, easy to handle new "Z" tractor.

When you know all about the new Z, which is so far ahead in its own power class, you will want no other tractor.
