

SURPRISE PARTY FOR MARTENS

ATKINSON—Miss Mary Jane Morgan and John Tamil, of Everett, Wash., exchanged vows in a pretty wedding ceremony performed by Reverend Hughes at the home of the bride's parents, Mr. and Mrs. G. E. Morgan, Friday, August 4, at 4 o'clock.

Miss Morgan wore a street-length dress of yellow organdy with a full ruffled skirt and a white orchid corsage. The matron of honor, her sister, Mrs. Ned Shaw, of Bassett, wore a white embroidered organdy with a purple orchid corsage. The bridegroom wore a blue suit and his attendant, Ned Shaw, wore a suit of gray.

The bride's mother, Mrs. Morgan, served luncheon to the guests. Only the immediate relatives were present for the ceremony.

Huge Maintenance Program Is Told

Over a thousand miles of maintenance gravel resurfacing is proposed by the state highway department for a letting to be held on August 24.

State Engineer Fred Klietsch says that it is highly unusual to take bids on so large a mileage at one time. The 1,222 miles of highway to be affected are nearly a fourth of the total gravel surfaced mileage on the state maintained system.

The work will be divided into 62 units and will be carried on in 42 counties of the state. Nearly 135 thousand cubic yards of gravel, weighing in about 362 million pounds, will be placed on these highways.

Since almost all of the gravel will come from Nebraska rivers and streams, most of the material will be trucked to the sites where it will be used. Nearly 27 thousand trucks, each carrying 6 1/2 tons, would be required to move all the gravel at once. Parked bumper-to-bumper, these trucks would form a caravan over a hundred miles long.

Some of the gravel will be moved across Nebraska in railroad gondola cars. Most of these cars carry 40 cubic yards of gravel and are about 42 feet long. A train nearly 27 miles long would be needed to transport all the gravel to be used on the maintenance projects in the August 24 letting.

More gravel is needed on the roads during unusually wet seasons, such as most of the state has had this summer, according to Klietsch.

Bride - Elect Feted At Shower

AMELIA — Miss Arliss Bly was honored at a prenuptial shower Tuesday, August 1, at the home of Mrs. Claude Lurman.

The program consisted of vocal numbers by Phillis and Nancy Watson, solos by Karen Garwood, and games by the entire group.

After the gifts were presented to the bride elect, a luncheon was served to about 80 guests.

Miss Bly was married August 6, to Richard Harley, of Chambers.

Mrs. John Conard was chairman and Mrs. Gene Cantlon co-chairman Sunday, August 6, for the Country club dinner.

Plan Achievement Program Friday at Page

The Eagle Hustlers 4-H club met at the home of Sonny Fusieman, on Tuesday evening, August 1.

Roll call was answered by naming a breed of cattle and telling some outstanding characteristic of the breed. Seven members were present.

The meeting was spent working on demonstrations.

A local achievement day is going to be held in the church basement at Page on Friday evening, August 11, at 8 o'clock in which we will take part.

We also discussed achievement day, which is to be held on August 14 at O'Neill. Most of the members have demonstrations to be entered.

After the meeting a lunch of ice cream and cake and a cold drink was served.

Next meeting will be held at Lyle Heiss' home on August 22. —By Tom Kelly, news reporter.

ATKINSON NEWS

When accident taps a worker on the shoulder and calls "Time Out," it may be for a day, a week, a month—or forever!

Every year time runs out for some 16,000 workers, killed in action on their jobs. 80,000 are so severely injured that they may never work again. Two million are injured in greater or lesser degree. The cost to workers and industry—\$4,500,000,000 annually. Over eighteen and a half million dollars every working day.

When you're inclined to be a bit careless, a little too tired to be cautious, remember, every 32 minutes some worker gets "tapped for life," every 16 seconds one is injured, temporarily or permanently. Know your job, be alert while on it. Vehicle accidents are the No. 1 killers and cause most permanent disabilities. Machinery is the principal source for partially disabling injuries, while the handling of objects knocks out more workers temporarily. Falls are occurring continuously, in all kinds of work, and cause anything from a slight injury to death.

So watch yourself at work. Think safely—use your head to save your job—maybe your life!
