According to word that comes from the statehouse, Nebraskans have material possessions with an assessed valuation of \$2,712,505,446. An increase of a little more than 2 percent over last year has been noted. Whether this increase is in goods and chattels acquired or a boost in the value of the old stuff is not determined.

"Sweeping aside ancient accumulations of notions, nostrums and nonsense, scientists have established a new solid fact about this elusive subject." Such is the introduction to a learned and labored production in print about sleep and how to get more of it. The author discourses in terms of the oligists about insomnia, a manufactured term that means nothing. You either sleep because you are sleepy or don't sleep because you are not sleepy. To borrow an expression of the late Josh Billings, some of our so-called scientists know too much that isn't so.

In the year 1892 B. C. a slave woman with her 12-year-old son was given a loaf of bread and a bottle of water and expelled from the tent of her mistress to be set adrift in the Arabian desert. With a bottle of water and loaf of bread to begin with there has sprung a people in fruition of a promise, "I will make of him a nation." So from the courage and fortitude of a bond woman and her son have sprung the hooded hordes on horseback that gallop out of the desert to protect their birthright, while their ladies remain in seclusion in the harems un molested. Whatever may be said of the Arab, crime against their women is unknown.

I see Montana Jack Sullivan is somewhat disturbed over the day's fad of the female of the species being clad in overalls. I have a granddaughter 3 1/2 years of age we think looks "cute" in them; but her maw stays by the slacks. Some of the bolder ones of the fair ones have come out in panties a few inches in length, but these are not rec-

ommended only for those with shapely leg. While the ladies have taken over the belted type of overalls the gents as yet have the bib variety to themselves. But when it comes to styles for the women we mere men join with Jack in saying, Go to it, girls.

First of the Fine Cars in Value

YOU can see this man has made his mark in life, and while his heart's still young.

You can tell he likes action for his money—that he knows a fine car needn't be the most expensive to give the greatest value.

Yes, such are the things you know of any man, when you note that his car is a ROADMASTER.

Follow him on his spirited way as he pilots this lively motorcar through traffic. Even the light-weights are no match for this road-steady husky—not with the 152-horsepower straight-eight Fireball engine that purrs beneath its bonnet.

Maneuver beside him at the next stop light. Then just try to get away as smoothly, swiftly and silently as Dynaflo Drive gets his ROADMASTER going—and keeps it rolling without shifting, even automatically.

But don't waste time merely envying the man in this great car! Why not emulate him?

With all its outsize room, interior luxury and exterior grace—with all its front-rank prestige, rare performance and matchless ride—a ROADMASTER can be yours for less than some smaller cars cost!

In fact, even if you had a fortune to spend, you couldn't make a more fortunate buy in the fine-car field.

So we suggest you try a few minutes behind the wheel. We're confident they will convince you that ROADMASTER has everything you could ever ask for in any motorcar—although your Buick dealer asks a good bit less for ROADMASTER than you might pay for other top-line cars.
