Some drains on public funds are noted in such things as a navy ship gong to midocean and sending up a rocket that attained a height of 106 miles, the sending of a gent with a doctor title by the wildlife service to Iran, Syria, and Turkey to look over the feathered denizens of the deserts with the view of locating some specimens to be transplanted to the Arizona and California desert regions. Junkets are on most of the time at public expense that are of no value in the general welfare of the people.

Before the repeal of the late lamented 18th amendment the bootleg liquor business was held up as one reason for repeal. The federal revenue sleuths now say \$1,000,000 a day is lost in liquor tax through the operation of illicit stills.

The expedition has returned to Istanbul from Mt. Ararat, having found no trace of Noah's ark reported some years ago to have been discovered. Another try will be made next year.

Attend State Legion Convention-

Dorrance Crabb, commander of Simonson post 93 of the American Legion, and John Grutsch, Holt county service of-ficer, were among those attending the state Legion convention at Lincoln over the weekend.

WHAT'S YOUR FIGURE?...on the call, we mean? If you make a sale - or a buy - that's one thing. If not ... well, you can see how difficult it is to put a price on value of a call. It is easy enough to base price on actual cost.

Here's our figure. We get it by adding up

costs of wages and materials plus a small profit. It amounts to a few cents per call. The profit is a tiny part of what you pay, yet it is just as important to you as to us. For a fair profit tells everyone that the business is sound and healthy and therefore a good place to invest new money. It's the new money, attracted by hope of return, that gives us the funds to expand and improve the service. That's why profit means progress for your phone service.
