**Evacuee from Seoul Convinced Only 'Big One' Will Stop the Russians**

(Editor's note: L. A. Ott, O'Neill farmer, this week received a letter from a brother-in-law, Stanley Phillip, who with his family was evacuated from Seoul, South Korea, a head of the red aggressors. Excerpts from the letter follow.)

New Grand Lodge, Karinzaua, Japan July 10, 1950

Dear Bert and Kate: Just thought I should drop you a line to add a word to any that Ofa has sent. As you can see by the heading, we are now in a spot where temporarily, at least, we are living the life of Reilly. I guess Ofa explained how nice it is here so I won't go into that. I finally caught up with them day before yesterday after being in Kyoto for 10 days. It was also pleasant there. Met Robbie Beasley the eve before I left, tried to call her when we got orders to come up here, but couldn't reach her and as the train was due shortly so didn't get to tell her goodbye or to pass on any further information.

Well, Bert, it looks like we are in it again and not in any small way as I see it. It will take 5 or

6 American divisions (maybe more) as Russia is going to push the Chinese reds in as fast as any American advantages are gained. Then we just go on from there to Indo-China, Iran, Berlin and the rest.

Ofa and the children will probably leave here around July 24 for home via army transport. I'm to remain indefinitely. Got a call from the boss last night asking if I would go to Formosa as liaison so expect I may land there. It's like jumping from the pan to the fire. Maybe I'll have a second evacuation.

The Korean evacuation was

very well handled and we were also lucky with weather. It was very cloudy Sunday and Monday so we got all the dependents off on a ship (fertilizer freighter) without any strafing from enemy planes. We also were lucky later when we came out.

We thought our puny S. Korea army could handle the situation. It proves another thing—Russia gave them arms and military equipment. We gave them economical aid and goodwill so the Russians are in and we are out. I hope we all remember that. Also, remember you don't get into a bar room fight with boxing gloves and a referee.

It was a hectic 3 or 4 days when we were on the jump and many times it was touch and go but we all are happy to be out. We, of course, hated to leave our lovely home and servants. God knows what will happen to them—they were loyal right to the last and the truck and bus drivers who stuck to the end deserve the best of praise. They or a lot of them probably got shot for their troubles. The Jap papers reported that 250 government officials were shot the first day after Seoul was taken and that people's courts had been set up to try every one who was connected in any way with the Americans. The slaughter is probably unbelievable because those characters are vicious.

Well, we lost most of our possessions. We have been listing all our losses and so far we are above the \$6,000 mark. . . .

Well, I guess I will close as I have a few other letters to write. I only hope this won't lead to the big one, but I'm convinced that only the big one will stop the Russians. Everything is moving according to plan—their plan—and it must be stopped. If it isn't we will be pulled back in our own little bailiwick and quarrel amongst ourselves until they take over there.

STANLEY.

**YOU'LL BE SORRY** if your new re-paint job begins to flake and crack because you failed to prepare the surface properly. The correct way is to remove the old paint before you apply the new. If, for some reason, you decide against this, be sure, at least, that the new paint has the same composition as the old, so paints will expand and contract in the same manner.

**DID YOU KNOW** that McDonald's MISS ELAINE "Precisional" slips are tailored to fit 99 out of 100 women without alteration? And I DO mean FIT. They're proportioned throughout, sized to fit every contour. They can't sag, bulge, twist or ride up. They're carefully tailored of superb quality multifilament rayon crepe. Whatever your build, there's a MISS ELAINE slip just for you. At J. M. McDonald Co. . . \$2.98.

**WHEN YOU KNIT** and purl with angora yarn, the wool tends to stick to your fingers, because of warmth of the yarn and electricity. Chilling the yarn in your refrigerator will eliminate the sticking.
