

## Turkey Day Family Reunions Numerous

EWING—The old tradition of making Thanksgiving day a time for family get-togethers was carried out in many homes in Ewing. A few of them are described below.

Mr. and Mrs. M. B. Huffman and daughters entertained their parents, Mr. and Mrs. S. M. Huffman, of Elgin; his brother and sister-in-law, Mr. and Mrs. Stanley Huffman and family, and Mrs. M. B. Huffman's mother, Mrs. G. W. Brion. All remained for a social afternoon excepting Mrs. Brion, who drove to Norfolk to spend a few hours with Mr. Brion at Our Lady of Lourdes hospital where he is confined for treatment.

Mr. and Mrs. Kermit Jefferies, Judy and Jerry were hosts to Mrs. Jefferies' parents, Mr. and Mrs. R. B. Krachis, and Mr. Jefferies' father, R. H. Jefferies, all of Ewing.

Mr. and Mrs. Gail Boies, Mrs. Rose Bauer and children of Ewing, accompanied by Nick Bohn and family, of Inman, were guests at a family dinner party on Thanksgiving day at the country home of Mr. and Mrs. Frank Bohn and family.

Mr. and Mrs. A. B. Sanders and daughter, Bernadine, were hosts to a 6 o'clock dinner party on Thanksgiving. Relatives present were: his mother, Mrs. Caroline Sanders; Mr. and Mrs. Lester Bergstrom and children, Mr. and Mrs. A. J. Sanders and three children.

Mr. and Mrs. R. G. Rockey and sons, Willis and Vernon, drove to Lincoln to spend Thanksgiving day visiting with Capt. L. Grimstead.

Miss Wanda Lee, who is employed in Omaha, arrived in Ewing on the early passenger Thanksgiving to spend her holiday vacation with her parents, Mr. and Mrs. Floyd Lee.

Mr. and Mrs. Edgar Jensen and sons had a family get-together for a Thanksgiving dinner. Guests in attendance were: Mr. and Mrs. Donald Jensen and son, John Dean, of Meadow Grove; Mr. and Mrs. Duane Jensen and baby, of Ewing; Mr. and Mrs. Z. H. Fry and Mrs. Jensen's sister, Miss Norma Hansen, of Lincoln.

A turkey dinner on Thanksgiving day was enjoyed by Mr. and Mrs. A. H. Marquardt and their son and daughter-in-law, Mr. and Mrs. V. Marquardt and daughter, Joan, and Victor, jr., who is a student at Wesleyan university.

Mrs. Leota Butler and daughter Mrs. Vera Anson had as their dinner guests on Thanksgiving Gene Fields, Mr. and Mrs. Archie Tuttle and daughter, all of Ewing;

## Nylon Jersey Blouses Win Applause

Spun nylon jersey, a new blouse fabric, fashions this tailored blouse with modified bat-wing, three-quarter sleeves and high, round neckline. A deep, curved yoke is edged with a covered cord which ties at center front in a small bow.

### Need No Ironing—Warm as Wool

SPUN nylon jersey, which won't shrink, sag or bag, is making its first appearance in blouses combining high fashion with extreme practicality.

The nylon jersey, heat-set to stabilize shape and size, dries speedily and needs no ironing. It has, thus, the good nylon characteristics in combination with the look and warmth of jersey. Wrinkle recovery, too, is good. Creases hang out in a very short time.

One jersey blouse knitted entirely of spun nylon, and designed by Penny Potter, has a deep V neck and three-quarter length sleeves. Fine shirring curves sunburst fashion at the waistline to define the figure. This blouse is done in both pastels and dark colors, to harmonize or contrast with dark winter skirts.

Another such blouse, simply and smoothly tailored, has a high, round neckline as focal point for jewelry touches. A deep, curved yoke is edged with a covered cord which ties at the center front in a small bow. Modified bat-wing sleeves are three-quarter length.

Both blouses are ideal travel companions as each can be washed in a jiffy and worn an hour or so later. Like men's nylon shirts, which also require no ironing, the nylon jersey blouses should prove popular with saleswomen and weekend travelers.

This spun nylon jersey blouse, which washes like a handkerchief, has simple V neckline and three-quarter length sleeves. Shirring at the center of the waist molds the lines of the blouse. The fabric has been heat-set to stabilize its shape.

# SPRY AND MIGHTY POWER PLANT

with a proud pedigree

Rushing into the cylinder, the fuel charge strikes the Turbo-Top piston—swirls into a tiny cyclone of terrific turbulence that gives a mighty power-push to the ignited fuel.

HERE you behold the up-to-the-minute version of a high-compression engine that has taught a whole industry something about fuel efficiency. Fact is, Buick pioneered the deep-breathing valve-in-head engine 47 years ago—and thus blazed a trail that aircraft engines—and more recently automobile engines—have followed. But don't let that ancient lineage fool you.

Today's Buick engine is not simply a valve-in-head. It's a Fireball—which means that it uses fuel-saving, power-peaking principles that are found in no other motorcar on America's highways.

"This is all very well," you say, "but what does it do for me?"

Mister, that's what we'd like to show you.

Come settle yourself at the graceful Buick wheel. Gently press the handy gas treadle—and feel this spry and mighty motor come to life.

Then head for the open road, and discover what a whale of a lot of fun it can be to have Fireballs under your hood.

Better come in soon, and get acquainted with the engine—and the automobile—that have won more than 200,000 owners of other cars to 1950 Buicks.

**No other motorcar engine can match these features**

- TURBO-TOP piston heads roll the incoming charge of fuel into a whirling "Fireball"
- MICROPOISE BALANCING after assembly keeps Buick engines within 1/4 of an "ounce-inch" of perfect balance
- CYLINDER BLOCKS are super-precision-bored and double-honed for perfect dimensioning
- HI-POISED MOUNTINGS cradle the engine for smoother action
- FLEX-FIT RINGS snug up against cylinder walls, increase oil economy
- DUREX BEARINGS provide unsurpassed bearing life
- CYLINDERS are individually cooled to prevent distortion
- FLITWEIGHT PISTONS combine lightness with hardness and strength
