## New Equipment Bought for Hospital

LYNCH—In November, 1949, an iron lung (respirator) was purchased at a cost of \$1,255 for the Sacred Heart hospital at Lynch by voluntary donations made by the public. The move was under the sponsorship of the American Legion posts. After the respirator was purchased, a balance of \$1,108.45 was left in the bank and had lain idle ever since.

Recently, at a meeting of the Lynch American Legion post this balance of the iron lung fund was disposed of as follows:

(1) Purchase of an electro cardiogram machine which makes the diagnosis of extraordinary heart diseases.

(2) A basal metabolism machine which deals with diagnosis regarding action of the thyroid glands.

(3) The balance of the money is to apply on a new sterilizer, which was recently installed at the Sacred Heart hospital. All these machines are to be placed and used in the Sacred Heart hospital at Lynch.
