Wooden Box Covered with Enamel and Stair Carpeting Handy Device for Kids
 By BLANCHE SPANN PEASE

Don't look now, but before we know it fall will be here and it will be school time again. This is the last Thursday in July.
 If you are the mother of small fry, you may want to give a small wooden box 2 coats of enamel and tack some stair carpeting on top.
 The children can use this to stand on at the sink and lavatory, as a seat or chair in the other rooms and you will find it will become generally handy. You'll use it yourself. The carpeting keeps the top from becoming slippery.
 If you want to encourage the children to have their throat inspected, use a lollipop to hold down their tongue instead of a spoon. Have doctors heard of this glorious idea? Grin.

THE "Blush" OF THE BARLEY..
 The individuality of flavor that distinguishes Old Style Lager starts with the barley... specially selected by our own experts at the very blush of top flavor. Barley is the soul of the beer. When choicest barley malt is skilfully combined with costly imported and domestic hops... when brewing is done with unhurried old-world care... when lagering (ageing) continues far longer than is usual in this country... then, and only then, can you expect a better beer—Old Style Lager beer! You'll love the smooth, the mild, the mellow taste of this fine light lager beer. Ask for Old Style Lager today. Always the same—always superb.

RAIN SELDOM UNWANTED IN THIS COUNTY
 Mrs. Veldon Pinkerman, of Redbird, wins today's 3 months subscription prize.
 Dear Mrs. Pease:
 I noticed in last week's column a request for a raised doughnut recipe. I have one I think is very good, and I have also made from not roll mix by using the recipe that comes with the mix.
 Here is my regular recipe:
RAISED DOUGHNUTS
 Dissolve 2 teaspoons sugar in 1/2 cup warm water, and add 2 pkgs. compressed yeast. Mix in large bowl and cool 1/2 cup scalded milk, 1 teaspoon salt, 1/2 cup sugar. Add the yeast mixture when cool.
 Blend in 2 1/2 cups sifted flour, 2 eggs well beaten, 3 tablespoons shortening, melted and cooled, add 2 1/2 cups of additional flour and mix well and knead. Place in greased bowl and cover. Let rise until double in bulk. Roll out on lightly floured board. Cut into doughnuts and let rise. Fry in deep fat at 375 F. Drain on a paper towel and sugar or ice. This makes 3 1/2 to 4 dozen depending on how thin you roll them out and the size of your cutter.
 The sunshine of the past few days has been received with great joy among the local farmers. Alfalfa was starting a second growth with the first cutting, still in the fields. Much of the corn is late and some under water in the low spots and farmers are working day and night to catch up with the work.
Rain is seldom unwanted in Holt county but it has been received in excess this year.
 Well, time waits for no man, so they say, and it certainly is slipping by while a huge ironing still waits for me, so I believe I'll apply that motto to women and get busy. Because time certainly doesn't seem to wait for this farmer's wife.
 Mrs. Veldon Pinkerman

Here's An Idea—
 If the cubes are to be used in iced tea, make the cubes from tea, then the strength of the iced drink won't be diluted.
 Cook the corn on the cob in your deep well, if the stove is equipped with one.
 Serve the cucumbers in the tossed salad sliced but unpeeled. The salad looks much prettier this way.
