Open Saturday Morns-Beginning on Saturday, September 8, the Holt county soil conservation office will remain open on Saturday mornings. This has been done in coordinating the agencies in the department of agriculture. This will mean that it is strictly an office day and that no field work will be done at that

Bob Hill explains that since the new departmental policy will go into effect at that time, the office days of the office in O'Neill will be changed, that half day will be the only time the office will definitely be open. During open weather, when employees can be in the field, they will spend most of their time in the field.

## Proper Cosmetics Will Keep You Fresh-Looking Despite Heat

BY EDNA MILES

TT takes more than determination to keep looking your best during the summertime. The keyyord is persistence. No matter
how meticulously you apply your
cosmetics, one make-up job just simply won't carry you through a whole day. So it's important to plan ahead for beauty touch-

Make sure the cosmetic case that you carry in your purse is properly supplied with essentials. These should include a compact, preferably with a large, clear mirror; an adequate supply of powder and a clean puff with which to

You'll need, too, a good lipstick and a small box of rouge, and a comb or brush for hasty coiffure smoothings. An extra supply of bobby pins and safety pins is use-

Remember that half your beauty battle is won if you can manage to maintain, during the hot months, a feeling of freshness and daintiness. To aid you in this skirmish with the thermometer, make a point of having handy at all times a bottle of cologne.

A large bottle, kept in the bath-

room or bedroom, is excellent for splashy applications when you're dressing. When you're traveling, it's a good idea to carry along a small bottle with a leakproof screw-cap, for fresh-ups whenever you get that damp, sticky feeling.

Realizing the importance of frequent fragrance fresh-ups, the young woman at left tucks a leak-proof bottle of cologne into her suitcase to help her combat travel grime. The other young woman points up the fact that a well-equipped make-up kit, including a compact with a large, clear mirror is an essential for the woman who desires to keep her beauty in peak condition all around the clock

### **School Lease Case** to Supreme Court

Another supreme court decision is expected in the controversial school land leasing squabble. The high court recently held invalid the law which provides leases with the provision that the for automatic renewal of the state get half of any bonus paid a

lease holder making a transfer. Now the state is faced with a claim from Oscar Sutton, of Palisade, for the \$3,152 he paid the state from the \$6,304 bonus received from Wayne R. Richards. Sutton had sold his lease which was automatically renewed.

The suit poses the problem of what is to be done with the \$67,-500 which the state has collected in the past 4 years, the period during which the unconstitutional law has been in operation.

Henry Bartling, secretary the board of educational lands making a record of such vacation and funds, is expecting "plenty more" such suits. Att'y-Gen. C. S. Beck said another court decision probably will be needed to clarify the situation.
