First Thing Ya' Know It'll Be Christmas; Better Start Thinking About Early Shopping

By BLANCHE SPANN PEASE

Goodness, fall is here, and the kids are back in school! Where on earth has the summer gone? It went tearing by as far as I'm concerned on speed king's wings. First thing we know, it will be Christmas. Suppose we'd better start thinking about that early shopping, huh?

Well, here's a tip! Put away a few jars of your choicest pickles, jelly, jam, and preserves on the gift shelf. They make the finest kind of gifts for folks who don't put up their own. You'll be surprised at how thrilled they will be.

If you want the jelly to look beautiful, and to obtain the best results, it is advisable to work with a small quantity of juice. Two quarts of juice is a sufficiently large quantity to handle at one time. Measure juice, bring to a vigorous boil, skim the juice and add sugar in proportion given in special recipes. Stir until sugar is dissolved. Cook rapidly for 10 to 15 minutes or until test shows jelly is done. It is unnecessary to skim again.

To test the jelly, dip a spoon into the juice. Cool slightly and allow to drop from the side of the spoon. If it sheets and tears off from the spoon in a distinct piece the jelly is done, and should be removed from the fire immediately.

You can make beautiful mint jelly using apple juice. If you eat much lamb, you'll find mint jelly a favorite accompaniment to the roast lamb.

Wash mint and chop fine. To each cup of chopped mint add 1/4 cup of sugar and 1/4 cup of water, and let stand for several hours, or overnight. Bring to boiling point, then strain. Combine sugar and apple juice, using 2/3 cup sugar to 1 cup apple juice. Cook and test for jelly, and when the jelling point is obtained, add green vegetable coloring and 1 or 2 tablespoons of prepared mint juice for each quart of apple juice.

Canning Recipes from Reader—
Dear Mrs. Pease:
As this is the time of year for canning, I will send in a few recipes and also some "did you know?" If you peel a ring around center of new potatoes, when boiling with jackets on, the skin will loosen easily.

When filling gem pans, if you leave one section empty and fill with water the gems will never scorch. To prevent a vegetable salad from becoming sodden when it has to stand, place a saucer upside down in the bowl before filling it with salad. The moisture will run underneath and the salad will remain crisp and fresh.

For the School Lunch—
PEANUT BUTTER COOKIES
Cream together 1 cup shortening, 1 cup granulated sugar, 1 cup brown sugar, and after creaming thoroughly add 1 cup peanut butter. Beat well. Add 2 well beaten eggs, 1 teaspoon vanilla. Sift together 2 1/2 cups sifted flour, 1/4 teaspoon salt, 1 teaspoon soda. Add to shortening mixture, stirring well. Roll dough into small balls. Place on greased cookie sheet, flatten with fork. Bake at 375 F. for 12 to 15 minutes.

SANDHILL SAL
No woman is happy for long unless she is changing things, her kitchen, her clothes or redecorating the living room. A husband may just consider himself lucky if he doesn't try to remodel him.

If as a man thinketh, so he is, some men would be millionaires and world famous. But what one thinks one can do, does not always pan out that way. Plenty of people get hurt trying, but if we did not try, there would be no progress in the world.
