## Matched Plastic Canister Sets Will Brighten Any Kitchen

By BLANCHE SPANN PEASE

Plastics may be had in such diverse materials and fabrics these days. New on the market are plastic canister sets, beautiful square ones with a cookie jar to match.

There are all matched kitchen sets these days that would brighten any kitchen. Besides the canister sets there are matching cookie jars, step-on garbage cans, holders for waxed paper and paper toweling, dust pans and stove table top mats, not to mention diverse other accessories.

Plastic curtains and drapes are really beautiful, including lovely ones for the bathroom. You can buy material in plain or figured material for draperies, and for diverse other uses such as table cloths and such. Truly beautiful plastic table mats are now also on the market, and they'll dress up any table.

If you can sew, you can run up a set of bathroom and shower curtains and new ones for the kitchen, and make them a bit different and everyone in the country won't own a pair like them.

And if you don't go in for plastic, you can use unbleached muslin and those press-on-decorations and using kitchen designs come up with some thing original in that line.

Mrs. Herbert Timm Wins Subscription—

Today, our 3-months subscription goes to Mrs. Herbert Timm, O'Neill.

Dear Mrs. Pease:

I am sending you some household hints.

Honey can be substituted for sugar in fruit cakes, steamed puddings, cookies and candies. These products will stay moist longer if honey is used.

Pour paraffin into drawer seems to stop seepage of dry ingredients.

If a given recipe calls for cake flour, and you wish to substitute

general purpose flour, you do so by allowing two level (not heaping) tablespoons of flour less per cup than the recipe calls for with satisfying results.

When making apple sauce, add about 1/2 cup of orange marmalade to 2 cups cooked apples for apple sauce with a real tang.

Soak shredded coconut in sweet milk a few minutes before using to freshen it.

Try dissolving the soap in boiling water before adding it to your washing machine. The liquid soap will do a better job.

To remove a burned crust from bread quickly and easily use a vegetable grater.

When decorating cakes; use a child's sectioned feeding dish to separate the various colored icings.

I am sending along my recipe for pineapple sponge cake.

**PINEAPPLE SPONGE CAKE**  
Two cups sifted cake flour, 4 eggs, 1/4 teaspoon salt, 1 1/2 cups sugar, 1 cup pineapple juice, 2 teaspoons baking powder, 1 teaspoon vanilla, confectioners sugar glaze, 1/2 cup crushed pineapple, well drained.

Sift flour once, measure and sift again. Beat eggs and salt together until thick and light colored. Then add sugar gradually, beating constantly. Add 1 1/2 cups of flour alternately with the hot pineapple juice, beating well after each addition. Combine remaining flour and baking powder and sift over batter. Beat in thoroughly. Add vanilla, blend. Turn batter into ungreased 9-inch tube pan. Bake in moderate oven of 375 F. 40 minutes or until done. Remove from oven.

Invert pan and let stand 1 hour or until cake is cool.

**FROSTING FOR PINEAPPLE SPONGE CAKE**  
Make confectioners sugar glaze by combining 1 cup sifted confectioners sugar with 1 tablespoon water. Spread on top of cake and let dribble down the sides. Garnish top of cake with a ring of the crushed pineapple. If desired, pineapple whipped cream topping may be substituted for the glaze and crushed pineapple. To make topping, whip 1 cup heavy cream until cream will hold its shape. Sweeten to taste, then fold in 1/2 cup drained, canned crushed pineapple. Spread on top and sides of cake or use as a sauce on slices of cake. One No. 2 can crushed pineapple will give sufficient juice and drained pineapple for this cake.

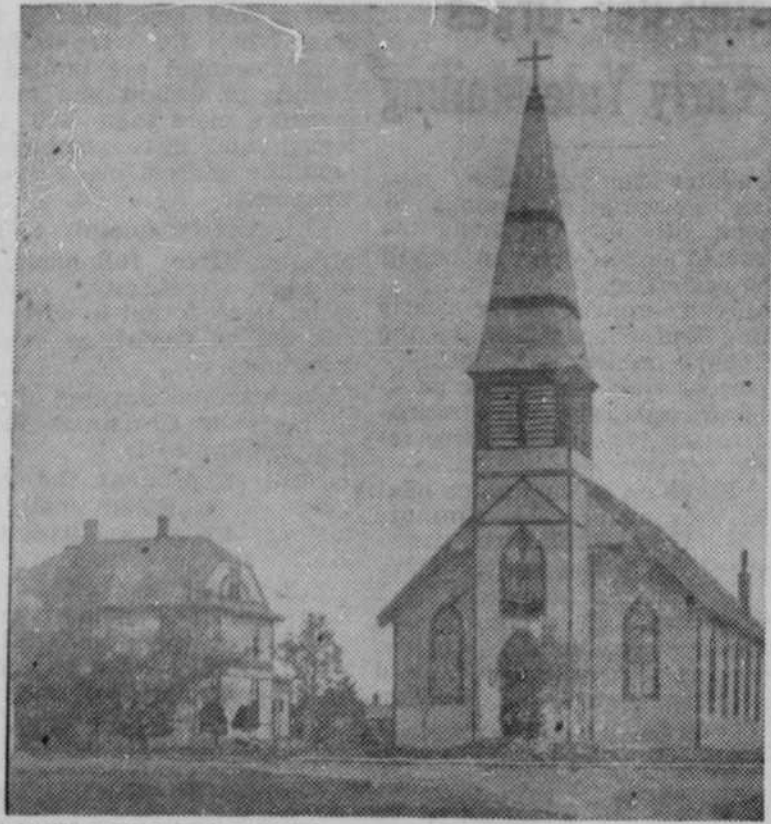

**LEMON FLUFF PIE**  
Four eggs, separated, 1 cup sugar, 1 medium size lemon, pinch of salt, 1 baked pie shell. Beat yolks with 1/2 cup sugar. Add juice and grated rind of lemon. Cook over hot water until thick. Cool thoroughly. Beat whites with the other 1/2 cup sugar, fold half of the beaten whites into the yolk mixture. Put into baked the meringue on top. Bake in a pie shell and spread the rest of moderate oven of 325 F. until lightly brown, twenty to twenty-five minutes.
