Ewing Rancher's Eye Is Punctured

EWING — A piece of wire struck James Bartak, of near Ewing, in the left eye Friday, puncturing the eye and damaging other eye tissue. The 21-year-old rancher was hospitalized at Norfolk late Friday afternoon and his condition Saturday was reported as "good."

The accident occurred shortly after noon Friday when Bartak was riding fence on the Bartak ranch near Ewing. Alone at the time the wire punctured his eye when he attempted to pull the loose strand from the ground. He remounted his horse and rode to the ranch house where he got a car and drove 22 miles to Ewing. There he met his mother and was taken to the Norfolk hospital.

Young Bartak's eye has been stitched and he will be kept under close care for several days. There is some doubt as to whether he will ever regain use of the eye, but doctors believe it will not be necessary to remove it.
