"Wide-Flow" Feed MEANS A FAST-MOVING HARVEST

Harvest is a breeze

with your own ALL-CROP Harvester

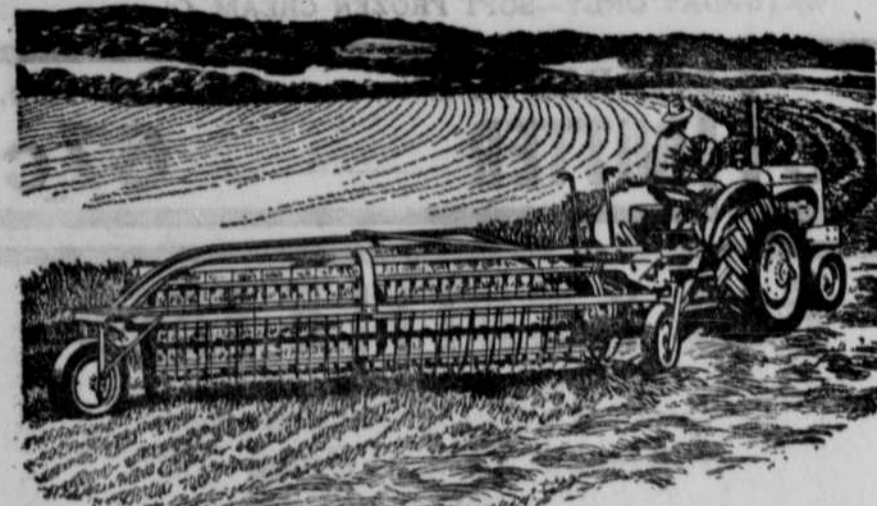

Air Blast Separation whirls kernels free from the straw, just behind the ALL-CROP Harvester cylinder.

You're ready for each field, as soon as it ripens. You ride out in front, ahead of the dust and dirt. And your own two-plow tractor provides the power you need. It's the easy, low-cost way to harvest every threshable crop.

Now is the time to buy equipment to beat both the weather and the labor shortage. We have ALL-CROP Harvesters on hand. See us now and get the best.

ALL-CROP is an Allis-Chalmers trade-mark.

see the GEAR-SHIFT Side Delivery Rake

Let us show you this Allis-Chalmers gear-shift rake . . . with two forward reel speeds and a reverse for tedding.

With this power rake, you can run the reel fast for heavy green material, or when raking straw. A pull of the shift lever slows down the reel for saving easily shattered leaves. And the third position gives a reverse for power tedding of rain-dampened swaths or windrows.

Let us demonstrate the power rake with just-right action for every crop and field condition.

TAX SAME

It is important that soil be well nourished for it takes as much work to plan, seed, plant and otherwise handle an acre of small yield as it does an acre yielding well. The tax is the same also.

LIVE ON STOOL

We live on a three-legged stool: Soil, water and plants. When anything happens to destroy one or more of these, the stool topples over.

A MUSTN'T

A straight line is the shortest distance between two points and a straight furrow on rolling land is the shortest line to soil destruction.

TIP ON PLOWING

It's poor business to spend money for time and fertilizer and then lose most of it by plowing and planting up and down hill.

Permanent farm prosperity will not be found around the corner but around the contour.

Agriculture is the foundation upon which our national economy rests.

STUART—Twenty-five members of the Women's society of the Community church and four visitors met at the church basement Thursday afternoon, March 27, for a regular session. The devotional program was led by Mrs. Fred Zink, Mrs. George Keidel and Mrs. John Newman.

In the business meeting it was voted to pay \$10 for the overseas sewing assignment of the White Cross in preference to buying material and making up bandages. The "pint of pennies" project was launched to help build a hospital at Palmer, Alaska.

A committee was appointed to serve coffee and pie on election day, April 1.

The committee for the food sale held Monday, March 15, reported a receipt of \$84.30.

Following the business meeting lunch was served by the hostesses, Mrs. Dwaine Lockmon, Mrs. James Ramsey and Mrs. Wesley Cobb.

Soil conservation doesn't cost—it pays.
