1952 Baseball Coming Up!

Shortly, Nebraska's baseball diamonds will resound to the cry... "Batter Up!" The baseball season is almost here. No other sport arouses so much community interest. None better typifies our American way of life. Sports of all kind play an important role in our educational system. Nebraska's brewing industry, too, is performing an important job of education. Your tavernman is cooperating, wholeheartedly, with the industry's program. He is continually taking steps to improve his operations. He conducts his business with a view to being an outstanding example of community helpfulness. Just as sports perform an educational job, the brewing industry plays a part in education of Nebraska's tavernman. Through this program, tavernmen practice methods of operation which merit praise and approval.
