Freak Radio Waves **Enable Chit-Chat**

One of the inexplicable freaks in radio gave Ed Wilson a thrill of a sort one evening last week. The manager of the Niobrara Valley Electric Membership cor-poration, an REA unit, sat down at the shortwave receiver in the office here to monitor a nearby work crew. The REA headquarterers is in direct two-way contact with its service trucks. He was dumbfounded to hear the clear voice of a petroleum truck dispatcher busily at work in Rochester, N.Y.

The crystal - clear reception in such instances is usually shortlived, however, because the layer rises or lowers and changes the angles, causing a "fade-out." Mr. Wilson said on a previous occasion he heard a Georgia sta- results:

Their little grandchildren, Gale and Maria Elena Stevens, children of Mr. and Mrs. Laverne Stevens, of O'-Neill, promptly claimed the tiny deer-about the size of a rabbit-as their pet and christened her Bambi.

Bambi drank milk from a pail with the dogs at morning and night. She grew and prospered-and acquired a bit of the wanderlust.
