School Funds Up

The state apportionment for 1952 represents a fat increase over 1951, according to Miss Alice French, Holt county superintendent of public instruction.

Total distribution of funds to schools from state lands is \$57,000 compared to \$40,000 a year ago. The average per district for 1952 is \$103.87 compared to \$66.25 last year, and per pupils it figures \$6.69 compared to \$4.62.

In O'Neill city schools, district 7, the comparison is \$4,126 for 1951 and \$6,080 for 1952.

The new policy in selling state school land leases accounts for a substantial increase in the apportionment fund. Other sources are free high school fund, blanket tax fund (which, incidentally, is being tested in the courts), one-fourth apportionment fund, three-fourths apportionment fund, and fines and licenses.
