Young Farmer

Class Planned Men 18 to 35 Are Eligible A young farmer class will be organized at the O'Neill public school on Monday evening, August 25, at 8:30 o'clock. The purpose of this class is to get young farmers to discuss their problems of the farm and arrive at definite conclusions as to how the problems can be remedied. There will also be some machinery repair and other related shop-work. The men of this group are limited to the age of 18 to 35. There must be at least 10 men interested but a class of 15 would be more desirable. There will be approximately 16 meetings of two hours each throughout the year. The classes will be set for times most convenient to the class members. "If you think you would be interested, meet next Monday evening and get the details," explains C. H. Stone, the vocational agriculture instructor at O'Neill.
