Mister, that's Cornpicking!

"I was surprised and pleased to see my Allis-Chalmers 2-Row Corn Harvester handle such a heavy yield," says Herbert Roadruck, Indiana's 1951 Champion Corn Grower with 199.4 bushels per acre.

Picking two ears where one usually grows is far beyond the normal call of duty for a picker.

Let us show you how easily an Allis-Chalmers will pick your corn crop — regardless of yield per acre.
