Prairieland Talk . . .

Sniggs' 3 Tons of Horseshoes

By ROMAINE SAUNDERS

O'Neill has furnished a story that got a start on do the kids now line up in a row along the south

out a day in October, 1931, with the story of Emil Sniggs' three tons of horse shoes. Emil was something of an artist shoeing horses, of which he made a specialty. The use of horses had pretty well faded out and Sniggs was caught with his storehouse full of them. This made a story for us at The Frontier, not suspecting that it would be pounced upon by newspaper guys all over the country and out at sea. One day Emil came in with a

clipping from the Honolulu Advertiser, sent him by Hugh Campbell, an O'Neill boy in government work in the islands, the Honolulu paper having the story that originated at a typewriter in The Frontier office. As a result of the publicty, Emil found markets for his horse shoes. It pays to advertise.

L. G. Gillespie, one of the few survivors of pioneer days in and about O'Neill, was a visitor at the state house during a day's sojourn in Lincoln last week. Lloyd represented Holt county in the legislature some years ago and got a measure through that gave the Amelia people a state highway. If business calls him to the capital city during legislative sessions, Mr. Gillespie takes a look in at the senatorial group. It was there I ran into him and we sat on the sidelines and had a visit. Senator Nelson was driving home that afternoon to attend to some pressing matters before returning for the session the following week Frank occupies a desk up front and fits into the legislative picture, now a veteran serving his third term.

November 25 the heavens spread a blanket of snow over praireland. Since then it has been sunshine and shadow, melting snows, sidewalks and highways iced over and more snowfall. This condition followed an autumn of cloudless and rainless days and has brought again the assurance of a fruitful season throughout the wheat fields and grass lands. Visitors from across the line in Kansas say they have had little or no snow and the need of moisture is worrying them. A patch of ice put Praireland Talker flat full length the other day, the only injury resulting being a de-

sunlight will never die, out under the evening star's bright eye, out beyond the haunts of evil men, away from the talk of flash and crash of atoms, out beyond the bugle call of marching armies and the roar of bombing fleets, away from the political intrigue as well as the scramble for another dollar. Don't expect to get there but that's the way it comes over you when you have reached the period of life that enables you to shake your iron-gray mane at the ignominies of

It is definitely announced from Washington that Val Peterson will sit in the white house, which beats a seat in the senate chamber. Stipend: \$15,000 per annum. A thrifty Nebraskan will make out on that even in Washington.

LINCOLN - I don't know whether or not > I wonder, in these modern school buildings a trip around the world since The Frontier came | wall as "teacher" used to have us do and "spell down"? I was one of the first to succumb, but in such event no brown-eyed lass ever came up with what Whittier put into verse 40 years after the grass had been growing on the grave of the little girl who spelled the word a boy, such as many another, had missed.

> I'm sorry that I spelt the word, I hate to go above you, Because,-the brown eyes lower fell,-Because, vou see, I love you.

The gents and ladies now a part of official Washington stand in happy array for a shot from the camera, smiling and joyful. Lay this picture beside that from Korea, a picture of the grim reality of the world's tragedy into which another group at Washington had drawn America's young manhood. Will this smiling group now taking over be able to bring an end to that Korean tragedy, rekindle the light of hope in warscared faces and restore young America to their rightful heritage?

Anyway, Governor Crosby cutting the budget by nearly five percent overshadows his collection of pipes and that remark about a "hell of a good question." Reducing your budget, of course, implies tightening your belt. It looks like some of the state's fancy things will get the ax which will bring weeping to communities and persons affected. It may not mean much in the final analysis, as a dollar saved in one quarter will be absorbed in another.

Three Holt county gents not enjoying unsullied reputations became involved in charges of contempt of court during the Flannigan trials in the early 1930's. One of the three (real true name unknown) was charged with contacting a juror sitting in the trial of the case and offering him a farm rent free if he would vote for acquittal of the defendants. The others thought to buy a juror for \$50.

Holt county banks are lousy with 10-cent dollars. I recall walking up Fourth street in O'-Neill one day in the long ago when I fell in with a young chap as we passed a bank building. He looked up to see if the building was still there, and announced, "I have \$20 in there." That was Out beyond the scarlet-tinted sky, out where a stake those days and young Clift Davis knew how he had earned the wad.

> When the legislature gets around to allowing each of 295 Nebraska newspapers will get a dip out of the \$92,812.90, the newspaper charges for printing the proposed constitutional amendments voted on at the last election. Of the several amendments all were approved by the voters but the one increasing state senators' pay.

> Two incidents of the presidential inauguration overshadowed all others in the minds of the American people, a sentimental lot. Ike bowed his head and sent heavenward a silent prayer. And he kissed Mrs. Eisenhower. Husbands, did you take notice?

On Winter Driving

Wilson P. Green, automotive expert at the Armour Research Foundation at the Illinois Institute of Technology, lists the following suggestions to winter drivers:

A heated garage is the best place for your car on cold nights. When parked outdoors, you can reduce the effect of cold weather on the engine by burning a large light bulb under the hood all night.

Your engine will start more quickly if you use a light-weight oil and a husky battery. Disengage the clutch while starting.

Idle your engine before driving off. Do not race your engine for long periods when it is cold. Apply brakes gently when slowing or stopping in winter, and if you have the new power brakes, test them cautiously for new responses before driving at high speeds. Remember that it takes a greater distance to stop on wet and icy roads than on dry concrete.

The main rule is to drive slowly and keep your distance behind the car ahead. Your headlights, windshield wiper blades and defrosters should all be checked.

If you follow this advice, the chances are that accidents will pass you up this winter. And since accidents kill over 600 people in this country each week, these winter-driving rules might save your life, if you follow them.

Time Marches On

(From the Blair Pilot-Tribune)

There was nostalgic and startling news the other day from Los Angeles, Calif. William Magee was dead-and that officially leaves only TWO members of the Grand Army of the Republic, those sturdy veterans of the Union army of Civil ward days, still surviving.

It's hard to believe. We recall, as though it were only the day before yesteryear, our greatgrandad, H. H. Reed, telling us in his own words of how he marched through Georgia with Sherman. And how proud we were of him, even when he admitted he and a buddy snitched two pies from a southern farmwife's window sill as they marched along.

But vet time does march on, like the Boys in Blue. Soon it will be an entire century since the men in blue fought their brothers in gray. Mr. Magee was 106 when he died Friday-that means he must have been only about 15 when he "joined up."

Yes, time marches on. Some day, sooner than we realize, people will point to us and say, "He remembers actually talking to men who fought in the Civil war."

And while it will date us, perhaps, we shall always be proud of the fact-that we actually talked with some of the men whose bloody struggle made possible the united nation we know to-

North-Nebraskans certainly can't complain about the weather. Except for a wierd January month has produced unusually mild weather.

Governor Crosby's determination to reduce spending in state government for the next biennium makes sense to us.

Most any competent worker can find an excuse for not working.

Life in a large city is one thing when money | year; abroad, rates provided on request. All is plentiful and another when it is not.

Rash of Bills Swamps Solons as They Dig in for Busy Session

LINCOLN—The legislature settled down to something resembling sanity this week after a hectic rush to meet the Monday deadline for introduction of bills by individual members.

So eager were the lawmakers to write Nebraska's statutes that battalion of aides worked ter's demand for a "full report" evening at their home. Cards fur-Bill Drafter Bill Wilson and throughout the weekend to slap from the highway department on nished entertainment for the together bills that would at least be suitable for introduction. the state's road situation won the blessing o the legislature and a lunch.

The grumbling was loud among legislators who had delayed submitting their requests for bills. One senator found so many bugs in his measure he hesitated to offer it but colleagues assured him it would be better to beat the deadline and try to get rid of the bugs

Among the last to be introduced was Sen. Dwight Burney's sales tax measure in which he was joined by Sens. K. W. Peterson of Sargent and L. M. Schultz

This is the third try for Burney on a sales tax bill and he's hoping there's some charm in that fact. He estimates the bill would produce around \$26 to \$28 million a
