**Citrus Makes Hit With Mother**

Mother knows best, and she's taught this child that the best breakfast starts with a big glass of Florida orange juice. And because May 10 is Mother's special day, breakfast includes a plump half grapefruit. Teamed with coffee and toasted muffins and a bit of marmalade for sweetening, it's most mothers' favorite fare, and understandably too, for the fine Florida citrus fruits now in season are budget priced and full of vitamin C, so important to busy women. Another good thing about this kind of a breakfast is that it's good nutrition easily prepared, even by the small fry. This youngster put the party touch on the half grapefruit by centering it with strawberry slices, just one of the ways you can dress up this famous fruit.
