## HOUSING NOTICE

AS THE AIR FORCE WIND TEST starting date nears, and as advance groups of wind test personnel arrive, we find the housing situation serious. An additional 37 men, civilian and military, have been assigned to the project and we are especially in need of more sleeping rooms for these temporary visitors.

IF THERE ARE any sleeping rooms available in Emmet, Inman, Ewing, Page and Atkinson, or in nearby rural homes, please advise our Housing Center because it is possible some of the billeting will have to be done outside of O'Neill.

MAKE KNOWN YOUR FACILITIES, LOCATION, RATE, ETC., TO:

## SOUP'S ON!

Delivering the makings for that soup and the rest of the food that many an American family ate last year was a major job for us.

The meat, vegetables, grain, fruit and other agricultural products carried over North Western lines in 1952 amounted to over 10½ million tons! If made up into a single shipment it would have required a freight train 2273 miles long!

Moving tons of food from grower to market is but one of our everyday jobs — millions of tons of other products are hauled swiftly and safely over our lines every year.

This is tangible evidence of what the combination of 35,000 loyal employees, efficient road and terminal equipment and 105 years of railroading experience can accomplish when called upon to serve.

"Moving Freight Faster, Safer, Better!"
