Do You Farm Sandy Land?

Madison Vetch

Can build up your land and pay for itself at the same time, because:

1. Rye and wheat yields are increased when sowed with vetch.
2. Cash crop of vetch seed.
3. Fall and early spring grazing.
4. Vetch adds up to 125 pounds nitrogen to soil which would cost \$17.50 as ammonium nitrate.
5. Adds organic matter which enables your soil to retain more water in future years.
6. Vetch will thrive on acid soil where other legumes fail.
7. Yields of corn are often doubled following vetch.

I have tested Madison Vetch Seed for sale at 16c per lb.
