Bell Asks 5th Rate Hike Since War

Northwestern Bell Telephone company of Omaha filed an application with the state railway commission asking its fifth general rate increase since the war. The company seeks from 15 to 90 cent increases in all local rates, and wants to make the rate on all its pay telephones a dime. Long distance rates will not be affected.

Northwestern Bell covers most of Nebraska except the southeastern counties.

Citing higher costs of furnishing service, General Manager Leonard O. Arstad of Omaha gave two main reasons for the request.

"First," he said, "inflation has greatly increased the day-to-day costs of doing business, including equipment, materials and labor."

"In addition, we've had to invest many millions of dollars in new facilities to maintain, improve and expand the telephone system in Nebraska."

"These two factors working together, are seriously affecting the company's rate of earnings," the general manager said.

The rate request involves a "double jump" for some Nebraska towns, including O'Neill, where the number of telephones has increased enough that Bell wants to put them in a higher and more costly bracket, plus increasing the rates in the bracket. Twenty exchanges in the state are similarly affected.

For example subscribers on a one-party residence line in Fremont would get an increase of 45 cents from the present \$4.20 under the group E (2,501 to 5,000 telephones) request of the Bell firm.

But the telephone company also has asked that Fremont be classed as a group F exchange (5,001 to 10,000 telephones).

The present one-party residence rate for group F is \$4.55 and the company wants to increase this 45 cents.

So a one-party residence line subscriber will jump from \$4.20 to \$5 under the schedule sought by Bell.

Cities involved in this reclassification are:

Fremont and North Platte to group F (5,001-10,000 telephones). Alliance and Sidney to group E (2,501-5,000).

O'Neill, Ainsworth, Dakota City, Gordon, Minden, Tekamah and Valentine to group D (1,001-2,500).

Laurel and Rushville to group C (501-1,000).

Binstow, Butte, Creston, Decatur, Millard, Potter and Spencer to group B (251-500).
