

'Get Well' Card to Mrs. Kilmurry

CELIA—The Celia Homemakers extension club met with Mrs. George Beck Tuesday afternoon, January 26, with 14 members present. Mrs. Duane Beck was a visitor.

A collection for "pennies for friendship" was taken and \$10 was given to the march of dimes fund. The lesson on "Low Calorie Foods" was presented by Mrs. LeRoy Hoffman and Mrs. Victor Frickel. A letter was read from the club's "shutin" thanking the members for gifts, cards, etc., sent at Christmas. A "get well" card was signed by those present and sent to Mrs. P. W. Kilmurry, who is in the Atkinson hospital.

The next meeting will be with Mrs. Lawrence Smith February 24.

The new Buick... roomier, panoramic windshield, more powerful.

Buick for '54 Is Revolutionary

Buick has announced a completely new line of automobiles for 1954, studded with the most revolutionary styling changes since the introduction of streamlining.

A four-door model 61 Century will be placed on display at the O'Neill Auto Show by A. Marcellus, O'Neill Buick dealer.

The new Buicks come in four series with all new, roomier bodies, beautiful new exterior and interior styling, longer wheelbases, panoramic windshields, and more powerful and efficient V-8 engines.

The Special series made its debut in the V-8 class in 1954 with a brand new 150-horsepower engine modeled after the valve-in-head V-8 introduced in the Roadmaster and Super series last year. Horsepower in the Roadmaster has been boosted from 138 to 200, and in the Super from 170 to 182.

New also to the Buick line for 1954 is the Century series, designed to sell in the price range between the Special and Super. The Century, which features a 200 horsepower Roadmaster engine mounted on a 122-inch wheelbase, has a very high power-to-weight ratio and is the outstanding performer in the Buick line.

All steel estate wagons are available for the first time this year in the Century and Special

series. Among outstanding styling features in addition to the new panoramic windshield are full rear wheel fender openings and sloping door line on all two-door Riviera and convertibles, built-in sun visor and rain cove on four-door sedans in the Roadmaster and Super series, new high crown front fenders which permit the driver to see the right fender at all times, and new instrument panel.

The new V-8 engine in the Special series, new combustion chamber design which increases power and economy, new power brakes, new front end suspension, and cowl ventilation are among the top engineering advancements, so closely identified with Buick, that have been restyled along the lines of last year's Skylark sports convertible. The grille styling also has been refined, with 49 thin bars of chrome enclosed in a chrome frame.

BUICK
the beautiful buy

THE instant you see these 1954 Buicks, you'll know that something sensational has happened in automobile styling. Here is vastly more than the usual model changeover. Here is vastly more than could be done just by warming over what Buick had before. Here is something accomplished by going far beyond artful face-lifting. Here is that rarity of rarities—a completely new line of automobiles.

But Buick didn't stop with the bolder, fresher, swifter-lined beauty you see in raised and lengthened fender sweep—in the huge and back-swept expanse of windshield—in the lowered roofline—in the host more glamor features of exterior modernity. They upped all horsepowers to the highest in Buick history. They engineered a new V8 for the SPECIAL—and in the process came up with new Power-Head Pistons that boost gasoline mileage in every engine.

They brought to market a sparkling newcomer with a famous name, the Buick CENTURY—a car with phenomenal horsepower for its weight and price—a car with more pure thrill per dollar than any Buick ever built. And they did all this without change of the price structure which, for years, has made Buick the most popular car at its price in the world. We invite you to come in and inspect these great beauties, these great performers, these great buys. Then you'll see why the Detroit previewers are already saying, "Buick's the beautiful buy!"

When better automobiles are built Buick will build them
