## More power for you

with the  
2-plow CA

We have it — more work power for you — in the Model CA Tractor. With two 14-inch plows, it walks right along in 2nd in toughest soils. Why?

1. The rugged Allis-Chalmers engine delivers 23.55 draw-bar hp. and 26.62 belt hp. at only 1650 rpm.

2. AUTOMATIC TRACTION BOOSTER, the new engineering principle that puts horsepower completely to work. Implement weight is transferred automatically to rear wheels as needed.

SNAP-COUPLER eliminates time lost in all job changes—overs with both mounted and trail-type implements. When it's time to cultivate, power-shift wheels are spaced in minutes.

For harvesting, the CA's two-clutch system lets you stop forward motion without slowing power take-off speed. Power used in ground travel is released to the P.T.O.

Let us demonstrate this new Allis-Chalmers power on your farm. It's built to earn a profit.

SNAP-COUPLER is an Allis-Chalmers trademark.
