There are more—far more—Hallicafter T.V.'s in operation in this area than any other make and more than several of the other leading makes combined. We have sold and installed every single one of the Hallicrafters.

There are reasons for this: We want you to share the enthusiasm of our scores of Hallicrafter viewers. We want also to share our vast experience and installation techniques. We ushered acceptance of television viewing to this area over a year ago. Some folks, including a few now in the retail television business, laughed at us. It is now our turn to laugh.

Hallicrafter prices start at \$149.95. We will sell you a brand new 1955 model at this price. It won't work in this fringe area and neither will any one else's set in this price range. We have heard a lot about Omaha prices in the World-Herald. You can buy the same thing in O'Neill at the same price. But neither purchase is advisable in this extreme fringe area.

Yes, folks, some of the things you have read about lay-offs in Eastern industrial centers are true. Warehouses are bulging with merchandise. Farm income has not kept pace with other types of income. In areas such as ours something had to be done. We have done it!

All merchandise plainly tagged with regular and liquidation price. No gimmicks, no "plus your old equipment," no plus anything. We are offering the finest nationally-advertised appliances at ridiculous prices — far under chain store prices. If you need anything at all in home appliances see us and see us as quickly as you can. It will pay you to drive 75 miles merely to attend this sale. Come early and prepared to buy!
