# BUSINESS SCHOOL FOR O'NEILL

The O'Neill Chamber of Commerce and the business men feel that there is a need for more business-trained people in your city.

In a recent survey, we found that there are many mature people, as well as young people, who would like to acquire business training, but because of family ties and other obligations are unable to go away to college in order to acquire business training. Therefore, in order to make it possible for those of you who are interested in business training to acquire this training, and in order to fill the demand for business-trained people in your city, we are considering the opening of a branch school in O'Neill, Nebraska, providing, of course that there is a sufficient number of students who are interested in acquiring this type of training.

## COURSES OFFERED

General Business, Bookkeeping and Secretarial courses will be offered, which through the use of the nationally famous Speedwriting method of shorthand and Speedtyping can now be completed in four to five months that formerly required nine months to complete. If a school is opened, both day and night classes will be offered, beginning about June 1 in an air-conditioned building.

At the present time, we are successfully operating branch schools in Holdrege and in Hastings, Nebraska. A minimum of only thirty students can be accepted, and enrollments are closed as soon as this number has been completed. Applications will be accepted in the order inquiries are received. Graduates will receive free lifetime placement service and free brush-up classes if necessary in any of over four hundred franchised Speedwriting schools in the nation.

If you are interested in acquiring business training that will qualify you to adequately fill responsible positions in the field of business at salaries in the upper wage category, fill in the coupon and return it to us at once in order that it may be determined if there is sufficient interest for this type of training to warrant opening a branch school in O'Neill.
