Middleagers, Older Should Have Checkup Before Swimming

Hot weather makes swimming the most enjoyable recreation for the family. Swimming is also one of the most healthful of sports. Swimming exercises the body without over-heating it. It helps develop strong, smooth muscles and good lung capacity.

It is a wise precaution, however, for people of middle-age or older to have a medical checkup before going swimming.

Young children learn to swim easily and without fear.

Success Shown in Selling Surpluses

U.S. Sen. Carl Curtis (R-Nebr.) said Tuesday that he believes considerable success has been shown in the program to sell to foreign countries surplus agricultural commodities. This program was authorized by public law 480 of the 83rd congress.

As of June 30, 1955, a total of 1.2 billion dollars worth of commodities have been sold, distributed, or committed under this act. Commodities disposed of in this manner include 52.6 million bushels of wheat, 22.5 million bushels of feed grain, 52.2 million pounds of dairy products and 149.9 million pounds of vegetable oil. Sales under this program are carried on in a manner that will not disrupt normal trade in United States markets abroad.

Senator Curtis pointed out that, at the current rate of negotiations, disposal during the coming fiscal year should exceed disposals during the fiscal year just past.

408,000 Cattle on Feed in Nebraska

It is estimated that there were 408,000 head of cattle on grain feed in Nebraska July 1. This estimate was made by the state-federal division of agricultural statistics. The April 1 estimate was 558,000 head.

Marketings of fed cattle between April 1 and June 30 totaled 308,000 head and set a new record for the period. During the past quarter, farmers placed 128,000 head on feed or about two percent more than placed on feed earlier.

Some cattle in eastern Nebraska were placed on feed after April 1 because of dry pasture conditions the report said.

Of the 408,000, 261,000 head, or 64 percent, were steers. Heifers numbered 131,000 head or 32 percent.

Indications point to feeders marketing 298,000 head during the
