**The Case of the Battered Battery**  
Billy Battery was found dead on August 20. Investigation by the unbiased Committee revealed the following facts in connection with his death.  
1. An unknown person had left the switch on and drained his life's blood to a vanishing point.  
2. They had given him something to drink when he was dry that wasn't distilled water.  
3. His case was cracked. It appeared to the Committee that he had been battered by a blunt instrument.  
4. They had lost his covers and forced him to eat mouthfuls of sand and dirt.  
5. When he was down and sick, they gave him a quick charge, which ran his temperature up to 125 degrees and that curdled his plates.  
6. Poor Billy Battery delivered his last feeble spark on the first cold morning, just one month and two days short of his guarantee period.  
7. Don't let it happen to you. The Billy Battery in your car may be old and feeble. Don't let your battery fail you in an emergency.  
Gambles' batteries are fresh. Strong and rugged. We have all sizes for cars, trucks and tractors in four price ranges.  
The Association of American Battery Manufacturers has furnished your Gamble Store with many tips and suggestions to make your battery give you better service. Come in and visit with us about them...
