"No Real Prosperity"

By ROMAINE SAUNDERS, Retired, Former Editor The Frontier

LINCOLN - With about 67 million citizens word that there is "no real prosperity."

the city, goes to a nearby village one night a week to shear the locks of villagers. Told me he came home from his last trip to the village with \$16 in his pocket, the evening's receipts.

No "real prosperity" - the kind that the political god of those convention delegates brought about based on bloodshed, on bursting bombs and ruined lands abroad, sorrowing mothers and fathers and sweethearts and desolated homes.

The kind of "prosperity" experienced during the administration of an earlier period of democratic rule when Nebraska grain growers got five cents a bushel for corn, farm women three cents a dozen for eggs, Holt county ranchers \$15 for a fat steer-when armies of unemployed tramped the country over, bread lines and a free bowl of soup.

No "real prosperity"-real or fictitious, what more do you want?

Sally, living just across the street, opened the bird cage for her parakeet to leave its narrow abode and hop about the room. A door opening to the world of birds and other wildlings had been left ajar. The parakeet darted out on swift wing, flew to a high treetop to perch upon a twig. Rain came, lightning flashed and thunder crashed. Parakeet perched and sat on a twig in that tree as Sally with measured and mellowed words sought to induce her bird to return to its cage. The bird was out where wild things make their home. All life seeks freedom from confinement. That little winged creature's first night of freedom was a night of storm and crashing thunder. It may have perished, but it was free.

If the C&NW's long passenger train trailing across north-Nebraska is operated at a loss, why not cut it down to a combination baggage and mail car and one coach? North-Nebraska should have some sort of passenger train service or tear up the rails.

The clean, white home of our governors for more than three score years, standing in a setting of shrubs and green verdure at 15th and H streets near the state capitol, is to be wrecked to make way for a mansion of ornate design. In view of this being the "beef state," why not put up a ranch house at that corner to be the home of future governors? That would have had an appeal to the late Sam McKelvie, who did not occupy the "mansion" when serving as governor.

Minneola is but a memory-the Addisons, the who work with their hands holding jobs and re- George B. Little homestead abode on Louse ceiving a weekly pay check, other millions in creek not even a memory. The H. R. Henrys, Lathe professions under high pressure, we in mon's and Richard's grazing herds, the ploneers Yankeeland seemed to be doing alright. But out | who traveled those prairie trails 70 years ago are of that partisan assembly of democrats came the no more. But out of the struggles of the past, out of the joy and pain, the smiles and tears of the "My barber," who conducts a shop here in years now gone there stand erect with snowcrowned heads, Mr. and Mrs. H. W. Tomlinson. I have read the story of their 60th wedding anniversary in The Frontier and reach a hand across 200 miles of prairieland to grasp their hands and offer congratulations as they now face the gathering shadows of life's sunset hand-in-hand. I do not know when Hank last visited the scenes of his youth but more than 60 years hang a curtain over the enchanted hills looking down upon the abode of John Addison since Prairieland Talker rode his bay gelding across the gulches of Louse creek to pull up at John's hospitable home. The landscape stretches its endless miles to the distant blue horizon. Where are the friends we once knew, Hank? Shall marble slabs in the Minneola graveyard give

> It's enough to make a well man sick. The president's health is probably about the average of that of other public men and this thing of bringing up a sore toe as a campaign issue is about the limit. What have the outs to offer that they should be voted in as government

Hans Herman Koenig writes from a West German point to a Lincoln paper hoping to locate relatives whom, he says, came to America and located at Butte, Boyd county, "in 1882." Of course, there was neither Boyd county nor Butte at that time or for 10 years later. What is Boyd county today was the domain of Spotted Tail and his Sioux Indian warriors until it was withdrawn from the Rosebud and opened for white settlers, deriving the name Boyd county in the early 1890's from the then governor of Nebraska, Mr. Boyd. The writer of the letter hopes to locate relatives and come here himself. His father died in a Czechoslovakian concentration camp from which the son | years. has escaped, and his mother died of a broken held at the D. N. Loy home. heart. He believes he has an uncle by the name of Koenig somewhere near Butte, Boyd county.

This is about the 25th anniversary of the present Holt county fair, not the 64th. Yes, there was a fair at Chambers over 60 years ago, but that went under the name of South Fork fair. Memories of Doctor Norval, of Reverend and Mrs. Coppoc, of the Grimes family, of John Alderson and all the others who promoted fair exhibits and inspired local pride and community patriotism. Somewhat regrettable that the rodeo show as it now functions was not a feature of the fair in the days of Hay McClure and Tim Bunnell. Citizens of the Chambers community and those from other communities enjoy a few days at the fair which | Page. . . The Albert Larson famprovides not only social contact and interesting entertainment but some fine exhibits.

Train-Savers to Be Heard

Interested persons residing along the Omaha-Chadron 450 - mile line of the Chicago & North Western railroad, under the banner of the Savethe-Trains association, emphatically decided Monday night to oppose C&NW's proposal to discontinue the last two remaining passenger-mail-express trains serving much of north-Nebraska and part of southern South Dakota.

C&NW has filed an application for permission to discontinue trains 13 and 14, pointing to an annual loss of 205-thousand-dollars. About two years ago C&NW announced it would take steps to discontinue and pointed to a 60-thousand-dollar

How the losses could mount so rapidly when the trains are more popular than at any time in recent years is not clearly understandable - although shrinking mail revenues and increased expenses cannot be denied or argued. However, according to the railroad's own station-by-station ticket sales, the train-savers show 1955 sales almost 50 percent above the 1954 sales. This certainly proves the public is responding to the improved equipment and to the train-savers' cry for

more patronage. But whether the losses can mount that rapidly in the face of these factors plus a 27- to 30thousand-dollar annual savings on the elimination of the flagman, is something that will have to be studied by the auditors.

C&NW doubtlessly is charging a percentage of officials' salaries, agents' salaries and maintenance to the two trains, whereas most of these expenses are fixed and will prevail whether or not the passenger trains are operating. This will provide an area of study for the train-savers' attorneys and auditors.

The railroad's formula for building cost sheets where discontinuance is desired will be the nub of the argument if and when a hearing is scheduled before the state railway commission.

One would have to be shortsighted not to believe the freight business Omaha-Chadron is profitable. On the other hand, one can easliy believe some of the short branch lines are plunging C&NW's overall Nebraska operations into red ink. True, trucks are not required to maintain passenger service and, true, railroads are operat-

ing in a highly competitive era. The loss of these two trains would be a serious blow to the economy of the area served and to the well-being of the people. The train-savers now have only one course-to take their case and

state it before the state railway commission. During the decade prior to the forming of the train-saving group, the railroad was slipping each year in its conduct of trains 13 and 14. Some of the decline can be attributed to the fact the C&NW adhered to a time schedule which enabled the Burlington to grab off chunks of mail at the west end with the government employing a truck to "back track" from Crawford to as far east as

Gordon. If the train-savers, during the past two years, have succeeded only in arresting the rapid rate of

decline their efforts have been worthwhile and successful compared to the C&NW's own pattern. The newly-installed C&NW president, C. J. Fitzpatrick, has boldly labeled the train-saving

effort a failure. With these general facts, it would appear the state railway commission would be erring greatly in permitting the railroad to curtail service. And the train-savers no doubt will present a convincing argument.

The New Code

A proposal is in the mill to cut the wordage of the code of ethics of the American Medical association by 90 percent. Action will be taken next Some of the new principles in the proposed

The prime objective of the medical profession is to render service to humanity. Doctors should try to increase their own

knowledge and share it with others. Doctors should expose unethical conduct of other doctors.

They should not permit anything to interfere with their independent medical judgment. They should limit their professional income

medical services. They should seek consultation on difficult

They should participate in any community activity that has the object of improving the health and welfare of the people.

These are perhaps as good as any Hippocrates | Co. in Horton, Kans. ever drafted for the medical men. We like the reference of sharing their knowledge with others. We hope that will be the death knell of the profes- Camp at Poncasion's limiting the number of graduates from the colleges of medicine.

Discipline for Brass

An army general whose office defense department officials suspect "leaked" staff documents criticizing air force-centered strategy has Cheriann Knepper, Linda and been "sent to Siberia."

Translating lurid service jargon into precise terms-Brig.-Gen. Lyal C. Metheny, senior member of a top-level "coordination group," has been detached from the pentagon to head a reserve district in Florida.

Here is a close parallel to the 1949 instance | Shares in Scholarshipof "Operation 23" and its head, the then Capt. Arleigh A. Burke, Captain Burke was removed from the next promotion list.

We're reminded of the two-star general who recklessly discussed the approximate dates of Dday in a London dining room in the spring of 1944. He was "busted" to a lieutenant-colonel and McVay of O'Neill, is a recipient sent back to the U.S. There wasn't a GI in England who wouldn't have gladly accepted a "bust" and have been meted out the "penalty" of being sent back to State-side.

Harlan Miller in the Des Moines (Ia.) Register: Just a cautious note here while I'm fomenting all this friendly feeling toward the people of Russia: Let's carry a big stick while we talk soft- lumbus Sunday. ly; let's disarm only if they'll let the UN inspect their weapons; and let's keep 'em outgunned. Then we could be wonderful friends.

One thing which would attract oter peoples to Christianity is for Christians to act like Christians, which is not a bad idea, on its own.

If you haven't bought any counterfeit merchandise lately, you will probably soon buy some. This racket is now booming.
