1957 Dodge Lancer Hardtop Five Inches Lower

THE 1957 SWEPT-WING DODGE, lower and longer, has the most exclusive styling and engineering improvements in history. Height of the two-door Lancer hardtop models like the Custom Royal Lancer shown above, has been reduced by five full inches so that the new Dodge stands barely four and a half feet high. Rear fenders sweep upward and backward to keynote the car's swept-wing styling, accenting a sport car appearance that is also a mark of the jet aircraft age.
