### How To Handle A Hamburger For Best-Ever Flavor

Handle with care and season with Ac'cent is the way to make fresh, ground beef into the heavenliest hamburgers you ever ate. It is not necessary to use costly cuts of beef as less expensive ground chuck is just as satisfactory. In fact, many people prefer it, as it makes a juicier hamburger. Adding 34 teaspoon or several shakes of Ac'cent (pure monosodium glutamate) per pound of meat does wonder to bring out the robust beef flavor and hold it, down to the

last succulent bite.

When shaping patties, handle the meat lightly, as kneading and pressing makes them heavy and dry. Pan-broil or grill your burgers and serve them piping hot with toasted buns. A novel trick is to assemble "go-withs"—mustard, relish, pickles, olives, catsup, and chopped onion in a small-size shiny aluminum muffin pan.

Heavenly Hamburgers 14 teaspoon salt 14 teaspoon pepper

1 pound ground beef 14 teaspoon Ac'cent (monosodium glutamate)

Break up meat with fork in mixing bowl. Sprinkle Ac'cent, salt and pepper over entire surface of meat. Toss gently with fork to distribute seasonings. Shape into 4 patties. Cook in preheated ungreased skillet on top of range, or in electric skillet according to directions, to desired doneness. Serve with chopped onion, pickle relish, catsup, mustard, sour pickle slices and sweet gherkins.
