WHAT MAKES AMERICA GREAT?

In America an education is not a prize to be won by a select few. Our educational facilities are not restricted to the sons and daughters of the wealthy and influential. They are designed to accommodate the multitudes... their doors are open to every ambitious young American anxious to improve, no matter on which side of the track he or she may live. In America the grocer's son becomes a specialist in surgery; the brakeman's daughter, a fashion designer; the truck driver's son, a civil engineer. Whatever vocation or profession they choose is open to young America. Kansas-Nebraska Natural Gas Company owes the American educational system much. It produces the skilled technicians responsible for bringing this valuable utility service into your home. Opportunities for learning and self betterment open to all is another of the many things that make America great.
