What Was Left Undone?

destron

Romaine

Saunders

LINCOLN-A 14-year-old Lincoln girl, brought up in a city of churches, colleges, universities and other cultural centers, with her 19-year-old "boy friend" on a three-day killing spree left a trail of their dead outnumbering life killings of either Nebraska's Wild Bill Hickok, Missouri's Jesse James or New Mexico's Billy the Kid.

What have the parents of these two youthful murders done or left undone? What has the community held out to them? What has our human society contributed to inspire youth to a life of lawlessness leading to the worst of allmurder?

Maybe it began at the cradle.

Had those two youthful murders been taught right in the home, taken to church and centers of culture their

young lives would not today be stained with sin. Lincoln's Wild Man of Borneo, a 19-year-old youth by the name of Charley Starkweather, shot to death nine people in Lancaster county while officers elected to maintain the peace and dignity of our fair state sat it out in safety in "consultation." The young killer made his get away but ran into guys up in Wyoming who handled shooting irons as well as he.

Safely jailed at Douglas, our brave officers went out to bring him here for trial. Why a trial? Toss a rope over his head and have a hanging Had there been one or two deputies in Lancaster county like the late Eli Hershiser of O'Neill the young outlaw would not have escaped to Wyoming.

The 1950 census-takers recorded sizeable groups of church goers in Yankeeland. They tell us that there were something over 30 million going to Roman and Greek Catholic churches with 86 million in the various Protestant groups. How many really paid weely visits and tossed n their two-bits might be a different story. Since the last census was taken, Evangelist Billy Graham has been heard from and the 1960 roundup should disclose another million or two weekly worshippers. Here in the Capital City a clergyman reports running onto a smoking party in his church; so maybe that's it-go into a church to sit down and have a smoke, not kneel down to worship

I can not reach a hand to you distant star nor travel the endless reaches of the vast unknown out of the depths of which the distant star glows. But I can walk the paths of earth, extend a hand to a fellow traveler and greet all with a smile, a cheering word and take him to dinner if he needs it.

Preparations are now under way for the anmual spring meeting of the Nebraska State Historical Society. They meet this year in Fairbury on

The Nebraska state railway commission Tues- |

day lowered a boom on the Save-the-Trains asso-

ciation in regard to the last two remaining passen-

ger-mail-express trains serving most of North-Ne-

braska. After 31/2 years of conferences and a

week-long hearing at Valentine last summer, the

commission has granted Chicago & North Western

Railway company permission to take off trains 13

and 14 that ply each way daily between Omaha and
