Special K Low-Calorie Breakfast -High In Health-Giving Nutrition

In their effort to keep the calorie-count down, many persons who are dieting tend to cut corners on nutrition, too, not realizing that they are depriving themselves of the food elements which are so vital to good health. The wise homemaker, however, never loses sight of the body's requirements for nourishment and plans her menus carefully so that every meal, while low in calories, carries to her family its share of health-giving vitamins and minerals.

One breakfast menu which is popular among these homemakers ... and popular with their families, too... is a cool, refreshing glass of fruit juice, Kellogg's Special K (ready-to-eat high protein cereal). poached egg on toast and a beverage. Plan to serve this breakfast to your family too, for, dieting or not, it's the healthful start for everybody's day.
