'59 Chevrolets Go on Display Today

A complete styling transformation, along with more safety, comfort and performance, was announced Tuesday for the 1959 Chevrolet passenger car line.

The cars will be displayed at nationwide dealer showings today (Thursday). The O'Neill showing will be at the A. Marcellus Chevrolet company showrooms here.

In shape, and in detail, the new styling reflects the influence of a space-conscious age. Lines sweep rearward in a virtually level plane. Tops are flatter and visibility is dramatically increased.

Some of the 1959 mechanical highlights increased a new six-cylinder engine, fundamental improvements in coil spring suspension, larger braking surfaces, a Turboglide transmission of advanced design, and easier steering and inclusion of a second shock-resistant universal joint.

An increase in passenger room is exemplified by almost five inches more width in the 53½-foot front seat. With 20 percent greater capacity, the trunk has been increased up to 32 cubic feet.

Sedans have been reduced in height one inch, and sports models two inches.

Hudson operated the Bow and Arrow ranch, about 30 miles south of Valentine. He was noted for his Hereford cattle and his brand was one of the first issued in Cherry county.
Hudson was born April 15, 1861 at Lexington, Ky. He came to Nebraska in the 1880's, settling in Cherry county.
