Nebraska Farmer Says:
"d-CON CLEANED UP MY RAT- INFESTED FARM!"
Read What Melvin M. Yonka, Of Crofton, Nebraska, Has To Say About d-CON:
"When I moved onto my farm, it was infested with rats. I tried lots of rat-killers, but they just didn't prove out. Then one day I heard about d-CON. And believe me, d-CON really works...it's a rat-killer that gets results. d-CON cleaned up my rat infested farm. Switching to d-CON was a great break for me!"
It's a fact — in the great corn and wheat belts of America, where farms are really big, you know how to get rid of rats. d-CON outlasts all other rat and mouse killers combined!
Farmers know that d-CON is the quick, sure, easy way to rid their property of destructive, disease-bearing rats. For rats hungrily eat d-CON's exclusive LX 3-2-1 formula, never suspect it's not a bait-kill-ahy, devour it without guessing that every bite puts another nail in their coffin. d-CON actually makes rats commit suicide.
d-CON is THERMO-SEALED — always reaches you "factory fresh." Economical, too. One package of d-CON makes several bait stations.
Remember, d-CON, used as directed, is safe to use around small children, pets, poultry and livestock, yet is guaranteed to keep your property rat and mouse free forever!
