THOUGHT FOR RETAILERS

DID YOU LOSE **CUSTOMER?**

Every year (on the average) 18 per cent of a store's customers move away or die

Many others shift their buying from one store to another, perhaps because of a grievance, perhaps because they think they're getting better merchandise, or lower prices, or perhaps because of one store's apparent indifference, and the other's aggressive promotion.

ON THE OTHER HAND . . .

Many new families move into the community each year, replacing those who move out

Many young people become adults annually. They marry, and create new families, which require food, clothing, homes, cars and a multitude of other things.

THE POINT IS . . .

A retailer isn't dealing with a fixed group. He is selling a passing parade, an ever-changing market That is why advertising-consistent advertising-which reaches all the potential customers is an essential part of successful merchandising today.

In this area, nearly all your potential customers are The Frontier readers. New residents or natives, young or old, find they need the newspaper. The thorough coverage of this complete shopping area, is another strong reason why the local newspaper is the basic retail advertising medium.
