Census Forms Sent To Homes This Week

Advance report forms for the 1960 census of population and housing will be distributed by the post office this week to all area households, according to Oren E. Cunningham, district supervisor of the 18th Decennial Census.

The advance report form is a new census-taking device, designed to speed up field canvass and provide more accurate statistics. It gives the family a chance to assemble information about each member in advance of the census taker's visit. Counters begin their house to house canvass April 1.

Several questions will be asked about each person in the household and six about the household dwelling. Household information will include name, address, sex, color or race, month and year of birth, whether married or single and relationship to head of household.

Information on dwellings will include number of rooms, cooking facilities, plumbing, whether rented or owned.

At every fourth household additional questions will be asked concerning country of birth, schooling, employment, income and related items. Additional questions on dwellings will relate to rent or value of heating equipment, water supply and other facilities and equipment.

Only statistical totals and averages will be published. Information about individuals and their homes furnished to the census bureau will be kept confidential under Federal law.

Training sessions will be conducted for this area at the Supervisor Room at the Holt county court house March 28, 29, 30 and 31 by Mrs. Frank Cronk, crew leader, of Page.
