### Dorsey News

**Mrs. Harold Osborn**

This community is pretty well snowed and muddled in. Not much of any movement on the roads. The only means of travel is by tractor or jeep. We received 7 to 10 inches of new snow Friday accompanied by high winds, causing drifts up to three feet deep.

Miss June Carson spent her spring vacation at home with her

parents, Mr. and Mrs. Albert Carson. She had to be taken by tractor to Lynch where she was met by her sister and husband, Mr. and Mrs. Ray Witherwax.

Miss Marilyn Graham had to spend the weekend in O'Neill as she could not get home due to our road conditions in northeast Holt county.

Mrs. Frank Gehlsen was unable to get to her school due to bad roads.

Mrs. Albert Carson has been having a time in getting to her school as two bridge approaches are out. She crosses one creek on foot takes a car to the second bridge then walks across the second creek and takes another car. Old man winter certainly can cause lots of inconveniences to many people.

Mr. and Mrs. J. B. Millard and family arrived at the Osborn home Sunday. They got to Lynch Sunday afternoon and had to be pulled through mud at the Leo Barnes farm. Then they made it to Redbird and were met at the mud-hole at the Hal Rosenkrans farm by Mrs. Millard's father and from there they had to be pulled all the way home.

Mrs. Virgil Pinkerman had to get to her school by means of tractor.

Our faithful mailman tries all kinds of roads and weather, but its getting to where he is about

the end of his rope, so to speak. But with a few days of sunshine he will again be making his route daily even if he has to wade mud and deep rutted roads.

Miss Ruth Osborn did not attempt to come home over the weekend due to road conditions.

This community had some difficulty with the telephone service while the heavy snow was on. Fortunately the electricity was out only one hour and fifteen minutes.

### Homemakers Corner . . .

Success lies not in achieving what you aim at, but in aiming at what you ought to achieve, and pressing forward, sure of achievement here, or if not here, hereafter. — R. F. Horton.

With the feel of spring in the air one has the urge to take a look at the trees and plants to see how they stood the winter. I have heard some remark that tulips were showing when there was still plenty of snow.

The best time to prune fruit trees is late March and early April. For young trees it is best to use hard shears or a sharp knife. If your fruit trees are older or larger it is best to use a hand pruning saw or lopping shears. After planting fruit trees careful pruning will aid toward the young trees shaping properly and also give them balance and strong, well distributed branches.

Here are a few ideas which may help to spark up those foods which one gets tired of fixing the same way all the time.

Three ways to fix mashed potatoes:

Put your leftover mashed potatoes, which you have seasoned with onion, parsley or pimiento between two slices of luncheon meat, making a sandwich. Bake 15 minutes at 325 degrees on a baking sheet.

Another way is to nest eggs in a bed of hot, mashed potatoes, mixed with bacon and onion. Place this in the oven and bake until the eggs are set; sprinkle salt and grated cheese on eggs before they are done.

If tired of potato cakes, vary them by shaping into balls, rolling in corn flakes, and baking in a greased pan at 375 degree for 15 minutes. Serve piping hot.
