SPECIAL

Starting April 11 we are now buying cream for the Burwell Butter Factory.

Sell your cream to a creamery which has never failed to pay a dividend every year since they have been in business.

Here is a list of dividends paid each year per pound of butterfat for the past ten years.

| | | |
|------|-------|------------------------------|
| 1950 | 6 1/2 | cents per pound of butterfat |
| 1951 | 9 | cents per pound of butterfat |
| 1952 | 8 1/2 | cents per pound of butterfat |
| 1953 | 7 1/2 | cents per pound of butterfat |
| 1954 | 6 1/2 | cents per pound of butterfat |
| 1955 | 5 1/2 | cents per pound of butterfat |
| 1956 | 4 1/2 | cents per pound of butterfat |
| 1957 | 4 1/2 | cents per pound of butterfat |
| 1958 | 4 | cents per pound of butterfat |
| 1959 | 3 1/2 | cents per pound of butterfat |

Average for the last 10 years 6 cents per pound.

We will be extending our routes. Also starting new ones so if you wish to have your cream picked-up stop in and visit with us or call IV 2-2811.

If you prefer to haul your own cream to town we will be happy to buy it at our door.

All cream will be weighed and tested by us at Chambers also will be paid for by us at Chambers so there will be no waiting for your money. At the end of the year you will receive your dividend check direct from the Burwell Butter Factory.

We feel we are doing the community a service by bringing this Cream Market into this area.

We have sacrificed part of our commission to do this so the only way we can gain back is through the added volume you give us.

THE SIZE OF YOUR ELECTRIC BILL SHOWS YOU ARE LIVING BETTER... ELECTRICALLY!

Sure your monthly electric bill is larger than it was several years ago... or even a year ago. That's inevitable because you are USING MORE electricity to operate MORE ELECTRICAL CONVENIENCES.

Look around your home and see how many new and improved appliances you have added in the last few years to lighten your work and make living more enjoyable.

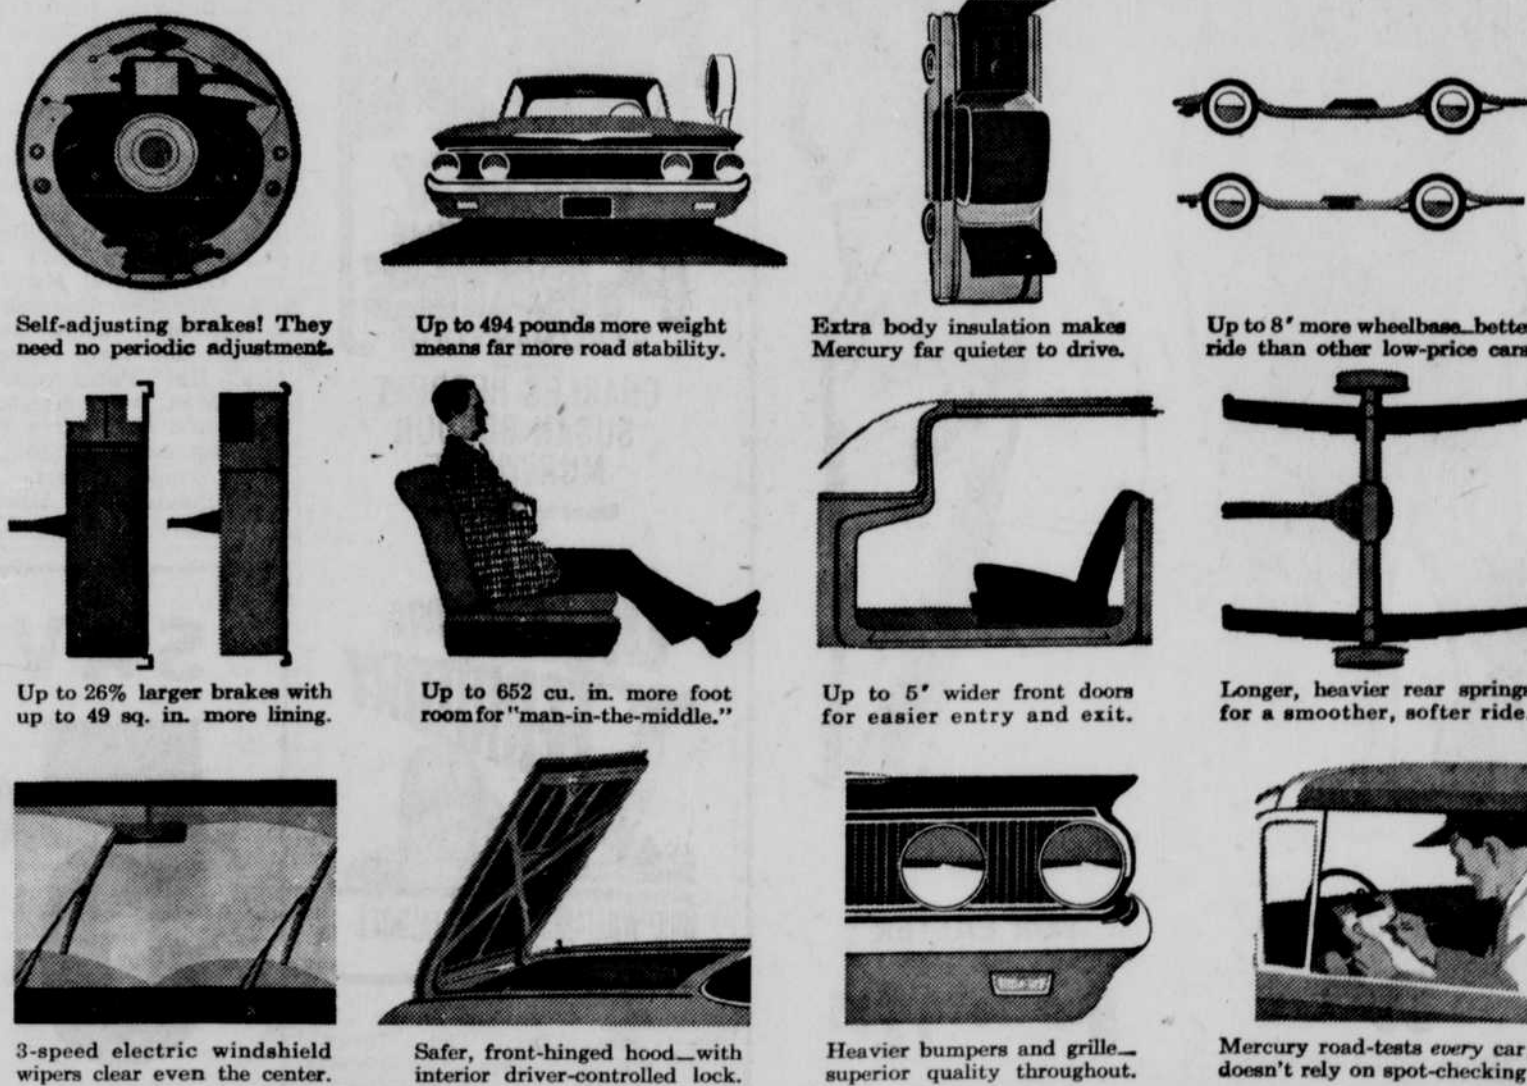

So many new appliances are now in use, in fact, that the average family served by Consumers Public Power District now consumes nearly twice as much electricity as it did ten years ago... nearly five times as much as it did twenty years ago.

MORE FOR YOUR DOLLAR

Even at yesterday's cost per kilowatt-hour of electricity consumed, today's better living would be a bargain. That fact is, however, that you are PAYING LESS PER KWH. Yes, even though your total bill is larger, the average cost to you per KWH consumed dropped from about 4.5 cents in 1940 to about 2.5 cents in 1959. This means you are getting more electric power, plus good service for your dollar. How many other cost of living items are there about which you can make that statement?

CONSUMERS PUBLIC POWER DISTRICT

THERE'S ONLY ONE LOW-PRICE CAR WITH A VALUE AND PRICE STORY LIKE THIS: MERCURY-THE BETTER LOW-PRICE CAR

Mercury prices start \$63 to \$66 below even the lowest priced V-8 powered Plymouth Fury or Chevrolet Impala!
