••••• SHELDON STATION •••••

••••• Shape of Things To Come •••••

Towering 150 feet above the countryside near Hallam, Nebraska, is Consumers Public Power District's Sheldon Station.

From this recent aerial view, the over-all growth pattern of Sheldon Station becomes readily apparent. Exterior work on the main buildings (shown at top of picture) is nearing completion. Many pieces of equipment have been set in place, including the 100,000 kilowatt turbine-generator. Work is progressing on schedule on the installation of the nuclear reactor vessel and its containment tank.

In the spring of 1961, the conventional steam facilities will "go on the line." In 1962, production of electric power from the nuclear heat source will become an actuality.

Completion of Sheldon Station will open a new era for Nebraska. The plant not only will supply a new source of needed electric power, but it will open great new potentials for economic growth.

CONSUMERS PUBLIC POWER DISTRICT

FRIDAY! THE GREATEST SIXTY-ONEDERFUL CHEVROLET

Here's the car that reads you loud and clear—the new-size, you-size '61 Chevrolet. We started out by trimming the outside size a bit (to give you extra inches of clearance for parking and maneuvering) but inside we left you a full measure of Chevy comfort. Door openings are as much as 6 inches wider to give feet, knees, and elbows the undisputed right of way. And the new easy-chair seats are as much as 1 1/4 inches higher—just right for seeing, just right for sitting.

Once you've settled inside you'll have high and wide praises for Chevrolet's spacious new dimensions (in the Sport Coupes, for example, head room has been upped as much as 2 inches, and there's more leg room, too—front and rear). Chevy's new trunk is something else that will please you hugely—what with its deep-well shape and bumper-level loading it holds things you've never been able to get in a trunk before.

Yet, generously endowed as this car is with spaciousness and clean-etched elegance, it holds steadfastly to all the thrifty, dependable virtues Chevrolet buyers have come to take for granted. Your dealer's the man to see for all the details.

There's never been a trunk like it before! The floor's recessed more than half a foot and the loading height is as much as 10 1/2 inches lower.

INTRODUCING THE '61 CHEVY BISCAYNE 6

the lowest priced full-sized Chevy with big-car comfort at small-car prices!

Chevy's new '61 Biscaynes—6 or V8—give you a full measure of Chevrolet quality, roominess and proved performance—yet they're priced down with many cars that give you a lot less! Now you can have economy and comfort, too!

IMPALA 4-DOOR SPORT SEDAN—one of five Impalas that bring you a new measure of elegance from the most elegant Chevies of all.

NOMAD 9-PASSENGER STATION WAGON. You have a choice of six Chevrolet wagons, each with a cave-sized cargo opening nearly 5 feet across.

BEL AIR 2-DOOR SEDAN, like all '61 Chevrolets, brings you Body by Fisher newness—more front seat leg room.

Biscayne 4-Door Sedan
