FLEX-O-GLASS

Over Your Doors & Windows
Over Screen Porch or Breezeway

H. F. Radder
Madison, Wis.

"Flex-O-Glass has made our porch a year 'round, livable room. The children love it."

"Here's an inside view of our large screened porch. If you couldn't see the snow outside, you'd think it was taken in summer. What doesn't show is the crystal-clear Flex-O-Glass tacked over our screens—an invisible barrier between our home and winter. This is the second year we have used the same Flex-O-Glass. We expect it to last at least two years more. That means it will cost us only about \$15 a year to protect the rest of the house against drafts. We can leave our furniture on the porch the entire year and provide a warm, protected play area for the children. If you would like to use this letter to tell other home owners how much they're missing by not using your wonderful Flex-O-Glass to protect their homes against winter weather, you have my enthusiastic approval."

ONE FLEX-O-GLASS

Made By Warp Bros. Chicago 51
World's Largest Producers of
Plastic Window Materials—Since 1924

"Flex-O-Glass is the cheapest investment in winter comfort we've ever made," says L. D. Higbie

"The few yards of Warp's clear Flex-O-Glass we tacked over the screens of our breezeway keep out cold, wind, rain and snow and give us a warm extra room. I tell my friends that if their breezeway is a winter 'blizzardway' to put up Flex-O-Glass and keep winter cold outside where it belongs."

"Our living room was warmer than it ever had been... such a relief not to have any more cold drafts on the floor," says Mrs. K. Klamp (Farm Wife)

"Our farm home is on a hill and gets the full blast of winter wind. Last winter we covered the front door and five windows with Flex-O-Glass. It made the house much easier to heat. We're so sold on Flex-O-Glass that we're going to cover our entire front porch with it this winter. It was just a snow catcher last year. With Flex-O-Glass tacked up, it will give us an extra room and double the protection for the rest of the house." (To enclose this entire porch will require only 18 yards of Genuine Flex-O-Glass, costing only \$13.02.)

Easy To Do... Inexpensive Too!
